

## LUSITANIA CROSSES IRISH SEA FLYING THE AMERICAN FLAG

### CAPTAIN DEFENDS ACTION BECAUSE HE CARRIED NEUTRAL MAILS AND PASSENGERS

Washington Officials Receive No Report of Incident, But Indicate that an Inquiry Might Be Made—Comment Is Reserved Until Full Information Is Received—Threat of Blockade Has Not Disturbed England's Trade.

LONDON, Feb. 6—(5:04 p. m.)—The Cunard Line Steamer Lusitania crossed the Irish Sea flying the American flag. The Lusitania sailed from New York January 30, arriving at Liverpool today.

An American passenger said the captain claimed the right to fly the American flag because he had neutral mails and neutral passengers aboard.

The Lusitania received a wireless message from the Baltic, of the White Star Line, that two submarines had been sighted from that vessel.

After being delayed by heavy storms, which raised seas deck high and injured eleven passengers, the Lusitania arrived off Queenstown late yesterday. She cruised off the Irish port for two hours and without picking up a pilot, as is usually done, proceeded for Liverpool at full speed, arriving at the Mersey Channel at daybreak, with the stars and stripes still flying.

According to a statement by Will Irwin, an American writer, the Lusitania carried the regulation large American flag at her stern, with a small American flag and mail pennant at the fore peak.

Former United States Senator LaFayette Young, another passenger, while he did not personally see the flag flying, said it was accepted as a fact by all on board.

May Inquire Into Incident.

Washington, Feb. 6—Although officials had received no report of the use of the American flag by the British liner Lusitania they indicated tonight that an inquiry into the incident might be made. Until full information is received comment was reserved, but it was regarded as not unlikely that the occurrence would furnish a basis for discussing the entire subject of the neutral flags by belligerent merchantmen on account of the charge to that effect made in the German admiralty's statement.

Threat Does Not Disturb Trade.

LONDON, Feb. 6—(10:50 p. m.)—Neutral opinion of Germany's threat of a submarine blockade of the British Isles, together with possible action by the governments of the United States, Holland and Scandinavia, is today competing with the big battle in central Poland for first place in the public interest in England.

Threat itself has in no way disturbed the seaborne trade of the country; steamers are running as usual, insurance rates remain as they were and ship owners declare there will be no change in schedules.

In fact the general belief here is that Germany is not in position to interfere to any great extent with shipping and the possibility of Germany becoming involved with neutral countries over this action looms large in British minds.

Lusitania Flies American Flag.

What effect the action of the captain of the Lusitania in flying the American flag will have on the question is yet to be seen. The Lusitania crossed the Irish Sea, according to American passengers, with American flags at her stern and fore peak, but this fact is not yet known to the English public.

Of the battle in central Poland, little news has come through today from either Petrograd, Vienna or Berlin. It is believed that the fighting continues and that it will be some days before a final decision is reached. If the Russian success in crossing the Bzura river is strongly supported and pushed it might lead to the shortening of this engagement.

From all accounts the Germans flung great masses against the Russian lines and although they gained ground at some points the assault did not succeed in breaking through the Russians and the latter were able to take the offensive in parts of the field. With the tremendous concentration of artillery and rifle fire and bayonet work the losses must have been very great. One correspondent at Petrograd places the German loss at 30,000.

In the Carpathians and in Bukovina hard fighting is also going on. The Russians, with a strong force, are making desperate efforts to drive the Austrians from Dukla and other passes and, although the snow lies deep in the mountains, the battles continue night and day.

Western Front Is Quiet.

Along the western front, so far as official reports disclose, there has been one of the quietest days for weeks. The artillery, of course, has been busy, but as if by mutual consent the armies have refrained from infantry attacks.

There has been no further fighting in Egypt, but statements from Turkish prisoners show that the Turks brought a great number of boats across the desert, drawn by oxen. They were somewhat surprised when troops got behind them and hemmed them in. In some cases the Turks were allowed to launch their boats before the British opened fire and sank them.

Earl Grey addressing a meeting today, said that War Secretary Kitchener in August asked him to appeal to the miners of Northumberland for five new battalions. Instead they raised twenty battalions.

### THINK RECENT GERMAN ATTACKS PART OF NEW GREAT OFFENSIVE

Petrograd Believes Heavy Reinforcements Are Being Brought up, the Austro-German Offensive Will Be Made Hurriedly.

Paris, Feb. 6—(5:40 p. m.)—The general opinion expressed by military critics in Petrograd is that the recent German attacks along the Vistula in Russian Poland are part of a new great offensive movement, says a despatch from the Temps correspondent in the Russian capital. The message continues:

"The German general staff has profited by the last few weeks of comparatively calm to bring up heavy reinforcements. The German plan is believed to be the concentration of large forces along the Vistula and in the Carpathians, leaving the Russians can hold the center. The combined Austro-German offensive then will be made hurriedly, as the Franco-Anglo-Belgian menace is constantly growing to the point where the Germans will once again be forced to strip their lines in Poland.

"Warsaw still appears to be the great objective and for its possession the Germans submit to enormous sacrifices and untold hardships.

"To this end seven divisions, composed of approximately 105,256 men, aided by 600 cannon which are divided into 100 batteries, occupy a front six miles in extent.

"The Russian advance in the Carpathians has continued in the direction of Uzsok Pass, where they soon will enter Hungary. The heights of Dukla and Beskid are all fortified and there, if forced to retreat, the Russian can hold the enemy off for an indeterminate length of time. Then on the Hungarian plans a wide encircling movement can be made."

### NO RADICAL CHANGES ARE MADE IN FOOT BALL PLAYING CODE

NEW YORK, Feb. 6.—The annual meeting of the inter-collegiate football rules committee, held for the purpose of considering changes in the rules for 1915 closed here late today without radical alteration in the playing code. The principal changes include giving the ball to opponents on a forward pass out of bounds, made on the fourth down, at the point where the pass was made; the increasing of the game officials from three to four and the limiting of re-substitution of players to the beginning of a period. The committee also earnestly recommended the numbering of players but did not make it a mandatory rule.

Minor changes in the rules include a fifteen yard penalty for unsportsmanlike conduct in addition to the disqualification of player in flagrant cases; a ten yard penalty for running into an opponent after a fifteen yard penalty for throwing the legs and striking with the lower legs an opponent above the knees. A fifteen yard penalty for running into full back after punt, to which is added disqualification for roughing the full back.

The committee ruled that the center must pass the ball back with one continuous motion and release it without momentary checking or holding.

The unsuccessful attempt of two eligible players to catch a forward pass in turn, before the ball touched the ground was ruled as an incomplete pass instead of giving the opponents the ball as formerly.

Other changes made were solely for the purpose of clarifying phraseology of the rules.

REICHTAG TO MEET MARCH 10.  
Berlin, Feb. 6.—via London, Feb. 7.—(3:15 a. m.)—The Reichstag will meet on March 10th, it was announced today.

### URGES CENTRAL CLEARING HOUSES BETWEEN SCHOOLS AND EMPLOYERS

Raymond Booth States Co-operation of the Two is a Vital Factor in the Solution of a Large Number of Industrial Problems.

Chicago, Feb. 6.—Establishment of great central clearing houses between schools and business houses as a means of reducing economic losses and decreasing the number of unemployed was urged today by Raymond Booth, of the Chicago association of commerce, at the closing session of the first annual convention of the vocational education association of the middle west.

"The hire and fire system of employment which is so common in our system of industry today entails enormous loss," he said. "The cost of advertising, interviewing applicants, supervision of new workers, spoiled work, small production and low efficiency during the training period are a great burden to industry.

"By establishing great central clearing houses between the schools and employers the product of the schools can be assimilated to mutual advantage. The ranks of the unemployed will be lessened by the fitting of the right man in the right place. The economic saving to business would be enormous.

"Co-operation between the schools and the employer is a vital factor in the solution of the large number of our present industrial problems."

### SUGGEST THAT NON-MEMBER OF HOUSE BE ELECTED SPEAKER

Attorney General Lucey Will Be Asked For An Opinion as to the Legality of Such a Move—Start Boom For Oglesby.

Springfield, Ills., Feb. 6.—Attorney General Lucey will be asked, on his return to the city, for an opinion regarding the power of members of the house of representatives to select as speaker some one other than a member of that body. Mr. Lucey is expected here Monday.

Several assemblymen have suggested that a man not a member of the legislature be elected speaker as a means of breaking the organization deadlock which will enter its sixth week next Tuesday. On the assumption of that the constitution does not prohibit such action representative William P. Holaday of Georgetown has started a boom for John G. Oglesby, former lieutenant governor. Secretary of State Lewis G. Stevenson also has been urged as an "outside" candidate. While the matter was not gone into officially by the state's legal lights, a cursory investigation forced the conclusion that the proposition will not stand although the state constitution is silent upon the subject, the casual inquiry into precedents indicated that inferentially no such procedure was contemplated by the framers of the constitution.

Several assemblymen have suggested that a man not a member of the legislature be elected speaker as a means of breaking the organization deadlock which will enter its sixth week next Tuesday. On the assumption of that the constitution does not prohibit such action representative William P. Holaday of Georgetown has started a boom for John G. Oglesby, former lieutenant governor. Secretary of State Lewis G. Stevenson also has been urged as an "outside" candidate. While the matter was not gone into officially by the state's legal lights, a cursory investigation forced the conclusion that the proposition will not stand although the state constitution is silent upon the subject, the casual inquiry into precedents indicated that inferentially no such procedure was contemplated by the framers of the constitution.

### JURIST'S ILLNESS POSTPONES TRIAL OF DES MOINES PLUMBERS

DES MOINES, Feb. 6.—The trial of thirty-six plumbers charged with violation of the Sherman anti-trust act, has been postponed from Monday morning until Wednesday because of the illness of Federal Judge Arba S. Van Valkenburgh.

United States District Attorney Claude R. Porter today received a telegram from the jurist saying that owing to a slight illness he would be unable to reach Des Moines until Wednesday.

More than one hundred telegrams were immediately sent out to witnesses and jurors who had been summoned to appear Monday.

### TAKE FEDERAL PRISONERS TO PENITENTIARY SECRETLY

ST. LOUIS, Feb. 6.—Twenty-two prisoners convicted a week ago of violating the oleomargarine laws were taken secretly last night from the St. Charles, Mo., jail to the Leavenworth, Kansas, penitentiary. Their transfer was effected secretly to avoid family partings, such as were witnessed in the court room when sentence was pronounced. An aggregate of \$125,000 in fines was imposed on the men in addition to prison sentences ranging from three and a half years to six months.

### BRITISH BARK GOES AGROUND

Fire Island, N. Y., Feb. 6.—The Hougoumont, a British bark bound from London to New York, went aground early today in a dense fog. In answer to distress signals the coast guard stood by her nearly all day before the heavy seas abated sufficiently to allow the taking off of the men. Seven of the number declined to leave the vessel. The boat is resting easily tonight and it is thought she is in no immediate danger.

### NINE HURT IN WRECK.

Kansas City, Feb. 6.—Nine persons were injured, several of them dangerously, when a Missouri Pacific railroad local passenger train bound for Atchison, Kansas, collided with an Atchison, Topeka and Santa Fe railway switching train in the yards here tonight.

### RE-ELECT HERRMANN AND BRUCE

Cincinnati, O., Feb. 6.—August Herrmann and John E. Bruce, chairman and secretary, respectively, of the National Baseball Commission were re-elected at the annual meeting of that body tonight.

### War News Summarized

The British Steamer Lusitania has made use of the American flag in crossing the Irish Sea and thereby probably has created a situation which will bring about an inquiry into the whole subject of belligerent vessels utilizing the flags of neutral states.

This incident bears out, in a measure at least, the allegation made by the German government that British merchantmen have advised to employ the flag of a neutral nation under certain conditions.

The captain of the Lusitania, according to American passengers, claimed the right to use the American flag in order to protect neutral passengers and mails aboard his ship.

No official report of this incident has been received at Washington, but it is considered likely there that a complete investigation will be made.

The text of the German memorandum regarding the retaliatory measures undertaken by the German government against Great Britain with respect to proposed action in the waters surrounding Great Britain and Ireland, including the English channel, specifically notes that shipping north of the Shetland Islands in the eastern arena of the North Sea and in a strip along the Netherlands coast, thirty miles in width, is not imperiled.

Germany expresses the hope that the neutral powers "will show no less consideration for the vital interests of Germany than for those of England and will aid in keeping their citizens and property out of this area."

Only meagre news has been received from central Poland to indicate that the trend of the great battle which is being waged to the west and southwest of Von Hindenburg has been hurrying his reinforced army furiously against the Russian lines in another attempt to force his way through to Warsaw.

It is believed that the battle continues and earlier reports concerning the nature of the fighting make it appear certain that there has been a great loss of life. In the western theatre the customary artillery duels continue, but it is comparatively quiet in this field of operations.

The latest official communication from the French war office refers briefly to the "very efficient fire maintained by our artillery in Belgium and in the valley of the Aisne" and says that slight progress has been made by the allied troops in Champagne, to the north of Massages.

The Austrian war office reports that the fighting continues along the Carpathian front and in Bukovina. The situation in southern Poland and in western Galicia, it is added, remains unchanged.

Emperor William of Germany, having completed his inspection of the German naval base at Wilhelmshaven, has gone to the eastern war zone, traveling by way of Czenstochowa, Russian Poland.

General Von Bissing, the new German governor-general of Belgium, is "and still is necessary in the highest degree." He asserts that the German army is not using any foodstuffs sent to Belgium by Americans and that the army is drawing its entire food supply from Germany.

### PATTEN RESIGNS ALL OFFICES IN THE METHODIST CHURCH

CHATTANOOGA, Tenn., Feb. 6.—John A. Patten, president of the Methodist Book Concern, today resigned from all general offices held in the Methodist Episcopal church with the announced purpose of saving the denomination from possible embarrassment in connection with libel suits he has pending against a Chicago Medical periodical and a New York Weekly journal.

The suits ask \$550,000 damages because of alleged publication of charges that Mr. Patten had been guilty of irregularities in the manufacture of a patent medicine here. He subsequently was fully exonerated on the charges by a church investigating committee.

Mr. Patten said he had prepared his resignation last April but had withheld it on request of the Methodist book company.

### SAVE PASSENGERS OF COLON.

On Board U. S. S. San Diego, via Radio to an Diego, Calif., Feb. 6.—All of the passengers and crew of the Steamer Colon which is aground inside the breakers off Topolobampo, Mexico, will be saved. The Cruiser Maryland and the Gunboat Annapolis are standing by and transferring those on board the grounded steamer to the Maryland and ashore.

The Colon is fast in the sand and leaking badly. Captain R. J. Paulsen of the Colon reported her in an unfavorable position for being floated.

### WILSON TO SPEAK.

Washington, Feb. 6.—President Wilson today accepted an invitation to speak at a Washington birthday celebration to be held here Feb. 22nd, under the auspices of various societies consisted of Sons and Daughters of the American Revolution.

### DUNNE URGES IMMEDIATE BUILDING OF WATERWAY

#### KNOWS OF NO SCHEME OF MORE MOMENTOUS IMPORTANCE TO STATE

Wants Sixty-five Mile Link Between Joliet and LaSalle Constructed to Open Up Commerce Between the Great Lakes and The Gulf of Mexico.

Chicago, Feb. 6.—Immediate construction of the sixty-five mile link of Illinois' proposed waterway between Joliet and LaSalle, at a cost of \$3,000,000 was urged by Governor Edward F. Dunne in an address delivered tonight at a banquet given by the Chicago Lodge of Benevolent Protective Order Elks in honor of Grand Exalted Ruler Raymond Benjamin of California.

The governor said, in presenting the advantages to be gained by constructing the waterway, that thousands of the unemployed in the larger cities would be given work.

Governor Dunne said in part: "Between Chicago and Joliet we have a great waterway, the sanitary district canal, fourteen feet in depth and with an enormous capacity for commerce. Between Joliet and LaSalle for sixty-five miles we have a waterway valuable only to pre-historic canal boats, drawing four feet of water. Between LaSalle and Grafton we have a splendid waterway of two hundred and sixty-two miles that without dredging averages seven feet in depth.

"Between Grafton and Cairo the Mississippi river has a channel eight feet in depth.

"The only obstacle to a tremendous commerce of self propelling and tow barges, capable of carrying from two thousand to twenty-five hundred tons between Chicago and the Great Lakes at one end and the Gulf of Mexico at the other end is the sixty-five miles between Joliet and LaSalle. I know of no scheme of more momentous importance to the state of Illinois than the building of this sixty-five mile waterway. It can be built with a depth of eight feet in two years and I have recommended to the legislature that the passage of a bill authorizing a bond issue not to exceed \$5,500,000 for this same and sensible project.

"Thousands of men are now out of employment in the large cities. By undertaking this great work at once many of these idle men would be furnished with work and the state given this much needed improvement."

### PERMIT INTER-STATE SHIPMENTS FROM UNINFECTED PART OF YARDS

President of Chicago Union Stock Yards Company Says Whole Yards Will Soon Be Open to Receive Stock.

Chicago, Feb. 6.—Inter-state shipments of cattle from uninfected parts of the Chicago stock yards are permitted by an order of the department of agriculture received today by S. E. Bennett in charge of the federal bureau at the stock yards. The order from Washington stated that no stock was to be allowed to remain in the yards more than 48 hours. If not removed after two days the animals must be quarantined against inter-state shipments.

"The quarantine against shipments out of Chicago has been raised by the order," said A. G. Leonard, president of the Union Stock Yards company. "We will open the north section of the yards on Monday. This section has been thoroughly disinfected. We will begin to disinfect the south section immediately and it will not be long before the whole yards will be open to receive stock."

Places Ban on Shipments.  
Sioux City, Iowa, Feb. 6.—The Sioux City stock yards today put a ban on shipments of livestock from Wisconsin, Illinois and the eastern part of Iowa.

This action was taken as a precautionary measure against the hoof and mouth disease, no case of which has been discovered in this section.

### UNTERMEYER FURNISHES STATEMENT.

New York, Feb. 6.—At the meeting of the federal industrial relations commission today, Samuel Untermyer furnished a statement which had been requested by the commission in support of his assertion that J. P. Morgan and company and Kuhn, Loeb and company dominated a majority of the railroads of the country.

In the statement he declared that his claim was founded on "probable facts" and was supported by the findings of the congressional commission which investigated the so-called "money trust."

### ASK MEXICANS TO TERMINATE STRIKE.

San Antonio, Tex., Feb. 6.—A resolution calling on the leaders of the parties now engaged in the war in Mexico to terminate the strife and unite for the good of the country was adopted by the Mexico peace conference held here today. The resolution is being telegraphed tonight to General Carranza, Villa, Maytorena, Hill, Zapata, Angeles, Cantu and other military officials.

### CHICAGO MAYOR ASKS DONATIONS TOWARD UNEMPLOYMENT FUND

Work Planned is to Beautify the City—All Money Subscribed Will Go Directly to the Unemployed.

Chicago, Feb. 6.—Mayor Carter Harrison issued a proclamation today asking all citizens of Chicago to contribute toward a \$500,000 unemployment fund, which is to be administered by an industrial commission of one hundred. The fund will be used for work for the unemployed. According to the terms of the proclamation only those who can prove a year's residence in Chicago and can certify that they are out of work through no fault of their own are eligible to the benefits of the fund.

The work planned is to beautify the city. Street and city work of all kinds for which public funds do not provide will be started immediately.

All money subscribed will go directly to the unemployed as R. T. Crane, Jr., has volunteered to pay all expenses of supervision. A check for \$1,000 to start the fund was received two days ago.

Prof. Charles R. Henderson of the industrial commission estimated today that there were 200,000 persons in Chicago who lacked employment.

### FITZGERALD AND UNDERWOOD DELIVER ECONOMY SPEECHES

Chairman of Appropriations Committee States Nation Would Have Been Bankrupt If All Demands Had Been Granted.

Washington, Feb. 6.—Economy speeches were delivered in the house today by Chairman Fitzgerald of the appropriations committee and Majority Leader Underwood. If all of the demands made upon congress by the executive departments at this session of congress had been granted, Representative Fitzgerald said "the United States, the first nation in wealth in the world, would have been the first bankrupt nation."

"The extravagant expenditure of public money," said Mr. Underwood "has been the greatest danger confronting republics since the world began. Unless some plan is evolved to centralize the control of these expenditures and to curb reckless extravagance and waste, I can see no end to the increased taxes that must be imposed upon the people."

Representative Gillett of Massachusetts, ranking Republican of the appropriations committee, criticized the administration for extravagance. He predicted that "before the first of next July the administration will be selling bonds to pay the running expenses of the government and keep a balance in the treasury."

### TAKE STEPS TO MAKE DIRECTORS PAY LOSSES OF NEW YORK BANKS

Treasury Officials Act to Aid Stockholders—State None of the Institutions is in the Slightest Danger.

Washington, Feb. 6.—Active steps have been taken by treasury officials to compel directors of at least six national banks in New York City personally to make good losses sustained by their institutions through what the government holds were investments not authorized by law. Officials declined tonight to give the names of the banks but it was said that none of them was in the slightest danger and that the total amount involved was a few million dollars. The investments took the form, it is said, of underwriting operations and occurred several years ago. Many of the directors of the banks at the time are said now to be connected with these institutions but restitution has been demanded nevertheless. Some of the directors concerned are said already to have agreed to make good but negotiations with others are still in progress.

Action was taken by the department at this time, it was understood, because the statute of limitations might operate to prevent stockholders of the banks in question from recovering the amounts lost through legal proceedings. Such proceedings probably would not be discouraged by department officials if the directors refuse to comply with requests for settlement.

### MILITARY ARTIST DIES.

Paris, Feb. 6.—(11:15 p. m.)—The military artist, Theophile Polpot, died tonight.

### The Weather

WASHINGTON, Feb. 6.—Illinois: Generally fair Sunday and Monday, not much change in temperature.

Temperatures.

The current, maximum and minimum temperatures recorded Saturday were:

Helena	32	36	18
San Francisco	58	62	60
Winnipeg	12	12	—14

### MAKE PLANS TO EXTEND CLEARING OPERATIONS

#### CONFERENCES OF FEDERAL RESERVE OFFICIALS RESULTS IN SCHEME

One Feature Provides for a Central Fund of Possibly \$25,000,000 to be Held in Washington—To Lay Plans Before Reserve Board Monday.

Washington, Feb. 6.—Conferences between members of the federal reserve board and governor of several of the reserve board banks and some reserve agents have developed definite plans for the extension of clearing house operations by the twelve regional reserve banks. One feature of the plan, it was learned today, provides for the creation of a central fund of possibly \$25,000,000 to be held in Washington to the credit of the reserve banks to take care of clearing operations between them.

The results of the deliberations, which lasted several days, will be laid before the entire federal reserve board next Monday. Since the plans have the approval of W. P. C. Harding and Paul M. Warburg, two members of the board, it was believed tonight that they would be endorsed.

No Attempt at Hasty Action.

It was pointed out that no attempt is to be made toward hasty action but it was understood to have been unanimously agreed in the conference that the time has arrived when the clearing house functions of the twelve banks should be exercised as fully as possible. Actual development of the clearing system through the reserve banks will be gradual but members of the reserve board believe that these banks will, in time take the place contemplated in the reserve act and do practically all the clearing for member banks.

According to information tonight the central fund in Washington is to be a gold fund made up of deposits from each of the twelve reserve banks. As now contemplated each bank might put up about ten per cent of its reserve funds in the central fund. It was understood that the secretary of the treasury might place some of the government money now on deposit with national banks in the fund, to the credit of federal reserve banks.

Such action would allow reserve banks to make smaller deposits in the central fund from their own resources. This part of the plan was said not to have met the approval of Mr. McAdoo as yet and it is possible that it will not be adopted. Its rejection will not effect the general proposals however. It has been estimated that handling of the central fund will not entail any great burden on the force of the federal reserve board. It will be devoted exclusively to taking care of items between federal reserve banks themselves and will have the practical result of setting up a clearing agency in Washington for the two banks.

### MAY ADJUST BALANCES WEEKLY.

Balances probably will be adjusted only once a week or once a month and will be largely matters of bookkeeping. In connection with clearings within a district the conference laid plans which will not force member banks to clear through their reserve banks, but which it is hoped will prove attractive to bankers and show the advantages of general intra-district clearing. At first the plans contemplate clearances only for such banks as accept it, but eventually it is believed that all banks will come in.

### TWENTY MINERS ARE KILLED IN EXPLOSION; 160 MEN ESCAPE

FAYETTEVILLE, W. Va., Feb. 6.—Twenty miners were killed and 160 escaped death in an explosion in the Carlisle Mine of the New River Coal company today. That so many men escaped after being entombed was due to the fact that cage and shaft were not damaged.

While many were brought out by the cage, some managed to climb out through the air shaft. Four men were rescued by searching parties who penetrated the mine soon after the explosion, which is believed to have been due to the ignition of a pocket of gas from a miner's lamp.

### RE-ELECT MINERS' OFFICERS.

Indianapolis, Feb. 6.—The three international officers of the United Mine Workers of America have been re-elected for a term of two years, according to the report of the tellers which was made public late today. President John P. White and Vice-President Frank J. Hayes had no opposition while William Green was opposed for re-election as secretary-treasurer by W. L. Simms of London, Ind. Green received 122,768 votes to Simms 45,378.

### 121 SHIPS UNDER U. S. FLAG.

Washington, Feb. 6.—With the admission of the Steamer Balboa, belonging to the American-Mexican Trading company of San Diego, Cal., to American registry today 124 vessels with a gross tonnage of 455,635 have taken advantage of the emergency act passed last August to hoist the American flag, according to a report issued by the bureau of navigation.

## "Locking the Stable After"

The horse is stolen is one of the favorite diversions of our Uncle Sam. Considerable agitation is being started to prohibit the export of wheat but by the time the facts are brought out our surplus wheat is gone. Professional politicians are howling for an investigation of the Baker, Grain Dealer and "Miller," blaming them for the high prices. In about 60 days they will know that the cause is the heavy exports and perhaps put an embargo on wheat and Cainsan Flour. The "horse will be gone" and prices of flour will go higher than ever. Better get your "Cainsan" Flour from J. H. Cain & Sons while getting is good, and join the "Bake your own Bread from Cainsan Flour Club."—Cain's philosophy.

### The New Drug Law.

A stringent federal law takes effect March 1, controlling the sale of habit forming drugs. The number of so-called "drug fiends" in this country is estimated from 1,000,000 to 4,000,000. It is time some thing was done to alleviate this national tragedy. The haggard men one so often sees may not be the subject of normal physical decay, but the victim of their own folly, which needs severe restraint. One of the persons arrested here Saturday charged with a murder at Beardstown is a drug fiend.

The most brilliant men often form these habits. The phlegmatic person capable of only mediocre work takes his daily task easily, and rarely feels compelled to seek artificial stimulants. But it is the man who could rise the highest who also may sink to the lowest.

The men who resort to this fatal support are numerous. Often they are at the top of their profession. They have the peculiar alertness of mind that goes with the nervous temperament, with marvelous acuteness of perception and capacity for swift judgments. It is this sensitive nature that feels strain most severely.

Manufacturers of cocaine and other drugs promote these habits with shameless lack of scruple. The sample of headache powder that is given away on the street or thrown on your porch may contain deadly narcotics. The closet shelf contains headache remedies a slight overdose of which will stop a person's heart.

Whether the law mentioned above is enforceable or not it is too soon to say. But public sympathy will be with its purpose.

**The Significance of Our Population.**  
An excursion steamer may be able to carry 1,000 persons. If they are evenly distributed, if they all crowd on one side, 200 might overload her.

The census experts are now debating whether the United States passed the 100,000,000 mark on Jan. 27, or will pass it on April 2. Whichever is nearer correct, in many districts our country already shows symptoms of over population.

Yet the experts say there is room here for a population reaching into billions, if the farm lands are intensively cultivated. Our cities seem to think that when they pass the half million or million mark, they have accomplished some wonderful human achievement.

Actually what has happened has been that a lot of human sheep, dazzled by lighted streets and flashy entertainments, have abandoned the economic functions for which they were best fitted. They rush into occupations already too crowded, while the basic task of providing food lacks workers.

Our population, speaking roughly, is increasing at the rate of about 20 per cent in 10 years. The agricultural population of food producers remains somewhere near stationary. Of course food prices rise. When you hear of a boy who thinks of leaving some farm for some store or some factory, ask him whether he is going because he feels some peculiar fitness for the new work, or merely because he wants to get to some place where there is "something doing."

If the latter is the fact, as is usually the case, then tell him that he is selling out his chances on a rising market, where there are too many workers. That is poor policy, if he has an ambition to rise.

### Qualifications For Candidates

A signed communication on another page this morning suggests that it is not difficult to get good material for city officials, that all that is needed is honesty, morality, business ability and practical common sense. But the unfortunate truth is that there are not a great many men who can be accorded honors as offering for public consideration a happy combination of all the good qualities and abilities which are included in the "simple" characteristics outlined.

### A Fair Way to Figure.

Perhaps the Chicago bakers who have increased the price of bread are not actuated by the same spirit of fairness which prevails in Jacksonville. One of the proprietors of a bakery here was asked when an increase in the price of bread might be expected. He replied that there would be no advance for some months at least, that the firm had enough flour to last until May and by that date real market conditions would be shown. He believes that some force other than European demand has been forcing the wheat price up and that if a "corner" has been worked that the truth will be known in a few months' time.

"If we find that the shortage exists and that flour sells say at about \$10 per barrel, then a raise will be necessary. When we were able to buy flour at a low figure, we said nothing and so we are not complaining now." On other words the local bakers are giving the people the benefit of their foresight in

making flour purchases months ahead and are not seeking to take advantage of present market conditions.

### MUNICIPAL AFFAIRS.

The fate of the ordinance and petition presented recently asking the council to change the rate of pay for mayor and commissioners is still undecided. The indication was Friday that a sufficient number of persons who signed the petition would indicate in writing a desire to have their names withdrawn and thus render the petition void. The provision in the law, however, making it necessary for such desire to be evidenced by a written request filed before the petition was filed was pointed out and put a stop to any proceeding of this kind. Meanwhile it is understood that members of the city council have sought legal advice either from Attorney General Lucey or from local attorneys and when the matter comes up for consideration at the Monday session of the council action may simply be deferred. There is a possibility that the petition will be referred to City Attorney Thompson with instruction that he look into the matter and furnish the council with a written opinion as to the proper course to be pursued.

Another matter of interest which will come up before the council Monday will be the annual report of the light and water departments which Commissioner Brennan has been preparing during the past week on data previously recorded. It is understood that the collections from the water department will be shown to be about \$32,000 and if these figures are correct, this showing will mean that collections the past year have exceeded those of any previous year by two or three thousand dollars. The record of the water department under Mr. Brennan's direction, has shown a steady increase year by year. So far as the light department is concerned, it is presumed that the record will be in accordance with the instructions given by the council recently when Mr. Brennan was ordered to open ledger accounts charging the department with water used and crediting it with power and light furnished to the water department and other city departments.

### LIBRARY MATTERS BEFORE THE ILLINOIS ASSEMBLY

A budget plan for public libraries is contemplated in an amendment to the library law which will be introduced into the Illinois legislature as soon as that body gets to work after completing organization. Library boards will thus be on a par with school boards in the matter of finances, estimating and announcing to the municipal appropriating body the exact amount of funds needed. To quote the law as proposed: "It shall be the duty of the directors of such public libraries annually and at least three weeks prior to the passage of the annual tax levy ordinance by any such city, incorporated town or township, to make written recommendations to the officers of such city, incorporated town or township as to the annual requirements of any such public library and the rate of tax which in the judgment of said directors it will be necessary to levy for library purposes." With the amendment passed, there will be available rates of up to two mills on the dollar. The law at present permits levies up to 1.2 mills, a rate which has been found inadequate, but which could be made sufficient by the small increase of .8 mill.

### NEW SPRING SUITS SPECIALLY PRICED NOW TO ENCOURAGE EARLY BUYING AT HERMAN'S.

### TO AID MEN IN GETTING WORK

U. S. Department of Labor to Lend Assistance.

The government department of labor has issued a circular to postmasters who will aid in a good work. It is an effort to bring men desiring help and men desiring work together. At present the work is confined to the farm and the postmaster is supplied with two sets of blanks, one labeled "Inf. 1" and that is to be given men desiring positions on farms. Then there is blank "Inf. 2" and that is to be given to men desiring to employ farm laborers.

Other blanks are in process of preparation and will be forwarded in due season as soon as ready.

All persons desiring either kind of blanks will get them of the postmaster free of charge but neither he nor his employees may be required to fill out the blanks for the applicants.

As soon as the blanks are filled out they should be sent to the postmaster by the maker who may send them by rural mail carrier or in person and they are to be forwarded on the first outgoing mail to the "Distribution Branch—Immigration Service" at the headquarters of the zone in which the office receiving them is located.

Postmasters are required to co-operate with the above work as far as they can do so without increasing the expense of the department or interfering with the duties of the official receiving them.

A poster is also sent out in good numbers and is to be placed in a conspicuous position. It is headed: "Farmers and other employers; do you need help?"

"Men and women; do you want work?"

It then goes on to give information regarding the blanks referred to above, tells when and where to get them and what to do with them and all is done without expense to the applicant as the documents are sent free of postage.

## TELEVE TEAMS HAVE ENTERED WESTERN ILL. TOURNAMENT

District Meet Will Be Held Here Friday and Saturday, Feb. 26th and 27th.

Twelve high schools have already sent in their entries for the Western Illinois High school basketball tournament to be held here Friday and Saturday, Feb. 26th and 27th. It is expected that four more will enter including Atton and Quincy. The games will be played in the new 8th grade building gymnasium. The various district will meet as follows:

Northeastern—Elgin.  
Northwestern—Galesburg.  
North Central—Peoria.  
Central—Bloomington.  
Western—Jacksonville.  
Eastern—Charleston.  
Southern—Carbondale.  
The following are the entries for Jacksonville:  
Granite City.  
Carlinville.  
Lewistown.  
Athens.  
Griggsville.  
Springfield.  
Gillespie.  
Hillview.  
White Hall.  
Astoria.  
Mt. Sterling.  
Jacksonville.

Just to advertise this week we clean and press suits of overcoats for 75c. Furry Shop, Ill. 1121.

## FUNERALS

### Taylor.

Funeral services for David H. Taylor were held at ten o'clock Saturday morning at the family residence, 908 East Lafayette avenue, and were conducted by Rev. Myron L. Pontius, in the presence of a large gathering of the relatives and friends of the family. The singing was by a quartette consisting of Miss Mabel Forrester, Miss Cora Graham, Phillip Read and Charles L. Mathis. The flowers were cared for by friends of the family. The bearers were Stansfield Baldwin, William Murgatroyd, Herbert J. Henderson, James Martin, Dorey Martin and Alva McDonald. Interment was in East cemetery.

## MATRIMONIAL

### Jones-Hull.

Mr. and Mrs. Wm. M. Huffman of West College avenue, are in receipt of word announcing the marriage Saturday of their niece, Miss Ely Hull at her home in Slater, Mo. to Mr. Cecil Jones, one of the enterprising business men of Slater. Miss Hull has quite a number of relatives and friends in this city where she has been a frequent visitor.

The newly wedded couple will go for a visit with friends in Texas and Colorado points and will then go to San Francisco to visit the Panama exposition; and expect to return to Slater to make their home in April.

### WITH THE SICK.

J. W. Nail, who has been seriously ill at the home of his daughter, Mrs. George T. McKee is reported improved.

W. I. Brown who has been sick eleven weeks is somewhat improved but yet unable to leave the house. J. B. Williamson, the grocer who has been quite ill at his home on Jordan street for the past ten days, is slowly improving and is able to sit up for a few minutes daily.

E. N. Kitner of East College avenue was out Saturday after being confined to his bed for about ten days by rheumatism.

Mrs. E. Lamb is at Passavant hospital for treatment for a bent arm. Some three months ago she fell and broke the member at the elbow and it healed stiff. She is to undergo an operation which her friends hope will be successful. Dr. J. U. Day is the physician in charge.

Paul, the little son of Mr. and Mrs. John Luby of Island Grove, who was operated on Thursday for appendicitis at St. John's hospital in Springfield is getting along nicely.

Mrs. Norman Dewese of near Prentice was taken to Dr. Day's hospital Saturday evening threatened with appendicitis.

### PLANNING FOR GOOD ROADS BANQUET

The committee appointed recently by the Morgan County Association of Highway Commissioners and Clerks to arrange for a banquet to be given soon, held a meeting Saturday to discuss plans. The dinner will be held Wednesday, Feb. 24, at 12:30 o'clock. The place has not yet been fully determined, and the list of speakers is not yet ready for announcement, although the committee has given assurance that one or more speakers of known reputation will be present on that date. The hope is that five hundred people will attend this dinner, representing both the city and the county, and such an assemblage of residents through subsequent influence can do great things toward bettering Morgan county road conditions. It is the expectation to have subjects discussed by the speakers of vital importance to all the residents of the county, and of interest not merely from a general good roads standpoint but with practical application to local conditions. Another meeting of the committee will be held Tuesday.

## Do You Know the Delights in a Cup of Roberts' Coffee?

The fragrance, fullness of flavor and aroma give satisfaction to every one who drinks it. All this goodness has been selected by us to give to the lovers of good coffee a cup that pleases. Experts have selected the best of the green coffee berries from the world's crop. Careful attention has been given to the aging under proper conditions, and preciseness in blending and roasting.

Use it for a week, then try to go back to your old coffee. You will say Roberts has given you a wholly new idea of how good coffee can be. Prices the same.—Quality never changes.

Superintendent Miss Laura White; leader, Lloyd Fisher. All services are free, and a special welcome awaits visitors and strangers. The prayer circle will meet in the pastor's study at 9:30 a. m.

### WAVERLY.

R. E. Coe was transacting business in Springfield several days this week.

Will Jones of St. Louis is visiting at the home of Joe Lombard.

Mrs. Claude White of Virdeau is visiting at the home of her grandfather, John R. Spires.

Mrs. C. P. Curtiss is visiting her brother, Frank Allen of Girard.

Mrs. A. D. Roberts has gone to St. Louis for a short trip.

Mrs. Owen Bradford has returned home from a short visit in Jacksonville.

Charles Dunseth made a trip to Chicago, this week.

John Brown of Auburn is visiting here.

The High school basketball team went to Franklin Friday night, the score was 9 to 0 in favor of Waverly.

DR. GRAHAM TAYLOR TO SPEAK ON THE GEORGE L. ROBERTS FOUNDATION.

Dr. Graham Taylor, who is to speak at the Illinois college chapel exercises Monday morning, is president of the Chicago Commons, a settlement institution and is also a member of the Faculty of the Chicago Theological Seminary. He has been very prominently identified with various reform movements in Chicago and in the state. He was a member of the committee that investigated the Cherry mine disaster, and was also a member of the Chicago Vice commission. He is the editor of the "Survey" and president of the Chicago School of Civics and Philanthropy. Dr. Taylor will speak Friday morning on the subject "Mobilization of War for Peace."

He was in France and England during the time of mobilization, and will, therefore, present this subject in the light of his observation and experience in Europe last summer. The college chapel exercises are held at 9:45 a. m., and all friends of the college are cordially invited. Dr. Taylor comes as one of the speakers on the Reverend George L. Roberts Foundation.

A FINE LOT OF HOGS. J. E. Kennedy of the north part of the county marketed something like eighty fine hogs yesterday selling to the Jacksonville Packing company at \$6.50 per 100 which is a trifle above the regular price but the porkers were extra fine. He was assisted to the city with the animals by Edward and Ora Rexroat, Grover Roberts, J. W. Baumalster, J. L. Benson and David Sloan. The benefit of dragging the roads was wonderfully apparent yesterday and it seems almost strange that any part of the county should be neglected when the value of the work is so evident. South of Arcadia where the matter has received attention going yesterday was excellent while in other directions it was rough.

BROKE AN ARM. Roy Brown, residing on East College avenue, is serving the Chicago & Alton railroad in the capacity of brakeman and while switching at Roodhouse his cars became derailed throwing young Brown to the ground and breaking his left arm. He will be at home some time for repairs.

David Henderson, Walter Houston, George Burmeister and J. C. Clark were in the city Saturday from Arcadia.

### ILLINOIS COLLEGE NOTES.

Dr. Graham Taylor, president of the Chicago Commons will deliver an address at the chapel exercises Monday morning, February 8th on the subject, "Mobilization of War for Peace."

Russel Quisenberry, who left school some five years ago to enter business life, has re-entered as a freshman. Tride Justus who left college last fall, has entered for the second semester.

The girls of the freshman class were entertained at the home of Dean and Mrs. Hayden last Thursday afternoon.

Everett Martin '04, who was called to Jacksonville by the death of his father, was a visitor the campus on Thursday.

Judge Cooke of the Illinois state supreme court will be the principal speaker at the annual Washington's birthday banquet in the college gymnasium, Monday evening, February 22nd.

Durrell Hatfield '14 and Clarence Kimmel ex '15, both of whom are now studying at the University of Illinois, have recently been visitors on the campus.

The members of Phi Alpha entertained their girl friends in the society rooms in Peecher Hall, Wednesday evening.

The regular college devotional service will be held at Academy hall at 6:30 p. m. Sunday evening. Dean Cochran will be the leader, and Miss Alma Forsythe will play a violin solo.

### CARD OF THANKS.

We wish to thank the many friends and neighbors who so kindly assisted us during our recent bereavement, also for the many beautiful flowers.

Mrs. B. E. Martin and family.

### REAL ESTATE TRANSFERS.

Nellie Askew et al to Thomas A. Casey, warranty deed, lot 25 and 27 Yates and Green's sub division to Jacksonville. \$1,500.

Robert Coe, Jr., of Waverly was transacting business in Jacksonville Saturday.

## The Conscientious Kicker

is one of the most valuable assets a community can possess, and to the credit of American cities let it be said that each has one or more able representatives of the type.

The Conscientious Kicker is ever ready to protest against injustice, to plead for reform and to combat wrong. His demands are seldom selfish, but, more frequently, are made in the interest of his fellow citizens rather than his own. He speaks for numbers and knows it; therefore it is small wonder that he frequently speaks with authority.

The Conscientious Kicker should not be confused with the chronic kicker or the professional fault finder, because his kicks are made with a sincere desire to improve things, while theirs are actuated by nothing more praiseworthy than habit.

Our latchstring is always on the door for the Conscientious Kicker. We know of no one from whom we would rather receive suggestions or with whom we would rather co-operate in our endeavor to perfect Jacksonville's gas, electric and transportation services.

**Jacksonville Railway and Light Company**

## CONSERVATORY NOTES.

The Illinois College chorus will hold its first meeting of the second semester on Monday evening, February 8th, in Recital Hall. All friends of the College and Conservatory are cordially invited to join the chorus. Application for membership may be made to Mr. Kitch or Mr. Munger. The work to be studied for the spring festival is Gounod's opera Faust, the best known and most popular of all grand operas. The chorus work in this opera is most attractive. Mr. Kitch will conduct, and Mr. Munger will be at the piano.

After a midwinter concert Friday evening members of Conservatory faculty were invited to meet the soloists in the library of Academy hall. An informal supper was served. Mr. Munger will give an informal talk on Puccini's opera "Madam Butterfly" at the public library on Tuesday evening, Feb. 16th, illustrating with Victrola records. The lecture is open to the public.

Miss Alma Forsythe has been engaged to assist in a musical to be given in Petersburg next Tuesday evening, February 9th. She will play three groups of violin numbers. Mrs. Flickinger, a former student at the Conservatory will also take part on the program.

## The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

## LAND O'NOD STORIES

### TRACKS IN THE SNOW

If you could have seen Billy Be By Bo Bum as he poked along the lane leading to the White Forest, you would have thought he had eaten Grumble Pie for breakfast, for an ugly pout puckered up his lips and two big tears rolled down his cheeks.

Crosspatch draw the latch, Sit by the fire and spin, Take a cup and drink it up And ask the neighbors in, sang Tinker Teddie, the merry little elf as Billy climbed over the stump fence that separated the cow pasture from the White Forest.

"No, I'm not a crosspatch," protested Billy, but all the same, the corners of his mouth turned down more than ever.

"Well then, why were you crying?" demanded Tinker Teddie. "Who was such a jolly old fellow that he could not bear to see any one else unhappy. 'Don't you know that little boys who cry when there is nothing the matter, miss lots of bully fun in this world?'"

"I lost my jackknife," replied Billy, and as he thought of his loss, a big tear rolled down his cheek and splashed on Tinker's head.

"It's beginning to rain," cried the elf, hopping up and down and shaking himself like a Newfoundland dog coming out of the water. "I'm well clear through to the skin and there's not a toadstool in sight for me to take shelter under. These showers certainly are bothersome."

"It's not raining at all at all. Why see the sun is shining as bright as can be," said Billy, beginning to laugh again at the idea of anyone mistaking a tear-drop for a shower of rain.

"Well, if it's not raining, how did I get soaking wet, just tell me that, will you, Billy Boy?" and the elf scowled as though he would like to bite the head off of anybody who dared contradict him.

"That was only a tear," replied Billy.

"There, didn't I tell you that crying always made trouble for someone," said the fairy, who was inclined to be rather cross for the minute.

"I am very sorry, indeed," replied Billy, "and I'll try not to let it happen again. But Tinker, I should think you would get lonely here in the big woods all by yourself."

"Why, bless your heart, I have hundred of playmates," Tinker an-

swered. "Every bird and animal in the White Forest is a particular friend of mine."

"But I have been tramping through the woods all morning and have not seen even a chick-a-dee," said Billy. "I don't believe there are any animals in the woods any more."

"Oh you don't, eh?" demanded Tinker. Well, you just tell me then who put all these tracks in the snow. Every track is the footprint of a bird or animal and tells a mighty interesting story to anyone who has learned to read Old Mother Nature's book of woodcraft. Why, Billy Boy, just by looking at these tracks I can tell you everything that happened in the White Forest last night."

"You can? Oh please show me how," cried Billy, hopping up and down like a jumping jack, he was so excited.

"All right, Billy Be By Bo Bum, come with me and I'll show you how to learn all about the Little People just by studying their tracks in the snow," and Tinker spread his wings and darted off through the bushes.

"Here we are, here's our first lesson," he shouted a minute later, pointing to a series of fan-shaped marks in the snow, two big tracks in front and two smaller ones behind, each set of footprints looking like a capital Y.

"Those are the tracks of Mr. Rabbit, Billy Boy," he said, looking very wise.

"Yes, I know that much myself," retorted Billy, "but I don't see what they tell you just by looking at them."

"Oh, you don't, eh? Well just notice how far apart each set of tracks is. That shows Mr. Rabbit was in a mighty big hurry, for he was taking the longest jumps he could. He had good reason to hurry, for see, here are the tracks of Slinker the Weasel," and Tinker pointed to a set of neat little footmarks that were mixed up with those of Mr. Rabbit. "He, too, was running as fast as he could, for he was hungry and had made up his mind to catch and eat Mr. Rabbit for supper. Let's follow them and see what happened."

So Billy Be By Bo Bum and Tinker Teddie set off to run down the tracks and find out how Slinker came out with his hunting.

## PROFITABLE PROGRAM AT STATE MEETING OF FARMERS' INSTITUTE

Twentieth Annual Sessions Will Be Held Feb. 23, 24 and 25 in Harrisburg—A. P. Grout of Winchester on Program.

Three full days of discussion of the problems faced in the farm, home and rural school will be included in the 20th annual meeting of the Illinois Farmers' Institute, to be held in Harrisburg, Saline county, Tuesday, Wednesday and Thursday, Feb. 23, 24 and 25. Literature received in Jacksonville from the state secretary, H. A. McKee, at Springfield, makes mention of a number of more-galient features of the three-day program.

Among the institute topics are: "How Not to Treat Illinois Soils"; "Relation Between Moisture and the Cultivation of Corn"; "Thirty Years Experience in Dairying"; "Poultry Culture and Its Possibilities"; "The New Education for Boys and Girls"; "Farm Management of Swine"; "Factors in Stock Feeding"; "Home Grown Feeds in Beef Production"; "Opportunities for Sheep Raising in Southern Illinois"; "Making Money From Farm Horses"; "Silos and Ensilage"; "Permanent and Sanitary Farm Structures" or "Concrete on the Farm"; "Agricultural Economics"; "Vocational Education"; "Apple Growing and Marketing"; "Insect Pests and Their Control"; "Roads and Bridges"; "Alfalfa, Soy Beans, Cow Peas, Clover and Sweet Clover"; "How I Have Benefitted From Club Work"; "Home Canning of Fruits and Vegetables"; Demonstrations in Bread Making and Vegetable Canning; "Dressing for Health"; "Home Building and Decoration"; "The Planning of Meals"; "The Fireless Cooker"; "Dressing for Health."

Among the speakers will be Frank I. Mann, A. P. Grout of Winchester, Clayton C. Pervier of Sheffield, Ill.; Prof. D. O. Barto and Miss Isabel Bevier of the University of Illinois; Dr. Cyril G. Hopkins, Prof. J. G. Mosier, Dr. S. A. Forbes, Hon. H. M. Dunlap, J. H. Robey, Hon. Edward J. Tobin, Mrs. E. W. Burroughs, Mrs. J. M. Clark and a number of others.

## BENNETT MAY RUN AGAIN.

James Groves, of Mound avenue, has sent to the Journal a clipping from a Rockford paper which gives an extended notice of a demonstration there in honor of Mayor W. W. Bennett. At this meeting a great number of the friends of Mayor Bennett strongly endorsed him for a third term as mayor and also started a movement "to make Bennett governor." Mayor Bennett's administration in Rockford, one of the largest dry cities in Illinois, has been such as to attract especial notice. He has been one of the leading dry advocates of the state for years and it is claimed for him that without revenue from saloons, he has been able to show the city of Rockford some good improvements and at the same time has reduced the tax rate.

## SALVATION ARMY IS NOW FIFTY YEARS OLD

Special Jubilee Siege is in Progress All Over World—Subjects Announced for Local Services.

Just 50 years ago the Salvation Army was launched into the world to take its place as a part of the propaganda to save the world. As to its usefulness its work peaks for itself, the local Corps has been established for more than 26 years of that time and at this time all round the world the Organization is holding its Jubilee Siege, or an extraordinary evangelistic effort to reach the unchurched.

Capt. Pinkston of the local work is making the announcements of the special subjects for the regular meeting of the coming week.

Sunday, A Message from Hell. Monday, Will the world go up in smoke?

Tuesday, Will God send people to Hell? This will be answered "certainly not."

Wednesday, Is the Church missing the Mark?

Thursday, Who's Right? the man on the street will excuse himself that he does not know which Denomination is right, this will be answered to suit him.

Friday, Is the doctrine of Hell a joke?

Saturday, A kiss in the dark. Sunday, 100 old drunks in one meeting and their fate.

During the week different phases of the Army's operations will be discussed such as, Is the army losing ground. Also the different sides of the work will be mentioned.

## COMES TO STATE HOSPITAL.

J. E. Phalen, formerly at Jacksonville State hospital and more recently at the Elgin hospital, has been assigned to special work again at the hospital here. He will have charge of the hydrotherapeutic treatment for patients. Some months ago Mr. Phalen, along with men sent representing all of the state insane hospitals, went to Battle Creek to spend some time in studying the methods used there in giving the hydrotherapeutic treatment in one of the famous sanatoriums. As the result of his observation and study there he has qualified as being able to take charge of the work at Jacksonville State hospital.

## NORTHWEST SHIPPING BOOMS.

Seattle, Wash., Feb. 6.—(When the Hill liner Minnesota sails today for China, Japan and the Philippines, she will carry a valuable cargo of foodstuffs, lumber, cotton and machinery consigned to the Far East. The big liner has lain idle since last September, but the boom in northwest shipping brought her back into service. Two brand new steamers will be put on the South American traffic this month.

## WILL LEAVE TOMORROW FOR CALIFORNIA TRIP.

Mr. and Mrs. Ivan Wood will leave tomorrow morning on the Burlington for Los Angeles where they will visit their son Homer. They expect to spend the remainder of the winter in the west.

## CHRISTIAN ENDEAVOR ORERS CELEBRATE

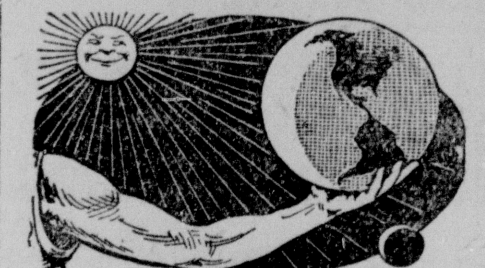

The week from February 7 to 14th has been set apart by the Christian Endeavor society for the observance of the 34th anniversary of the founding of the society. Beginning on Sunday, exercises will be held all over the country. Sunday, Feb. 7, is "Christian Endeavor Day" on which a morning sermon on the work of the society will be preached in many pulpits, and evening union services will be held. Monday will be "Enlistment Day" in which a campaign for new memberships will be carried on. Tuesday is "Local Union Day" with mass meetings in the evening. Wednesday has been designated as "Church Day," with the suggestion that Endeavorers attend the church prayer meeting, preferably in a body. Thursday evening will be given over to special entertainments. Friday is to be devoted to extension of Endeavor work such as prison service, floating, college, academy rural departments, etc. Saturday is set apart for Junior and Intermediate societies, and the closing Sunday, February 14, is emphasized as "Decision Day" on which special effort is to be made to obtain decisions for the Christian life, for enrollment in the church and for many other betterments, characteristic of the growth of the true churchman.

## DEVIL HAS RE-ENLISTED.

John Devlin of North East street has been notified by his son, Jack, who was in the band of the Fifth Regiment, U. S. Cavalry, that his time having expired he has re-enlisted and has been assigned to membership in the 11th Regiment of Infantry and is cornet player in the band. When he was at home in the summer he left his heavy overcoat at home, and a letter from him received yesterday requested his father to send his coat to him to Douglas, Ariz. where the regiment is now stationed. The coat was sent by parcels post at a cost of 73 cents. The young man said he was well and enjoying life on the border.

## Blood Remedy Sustains World

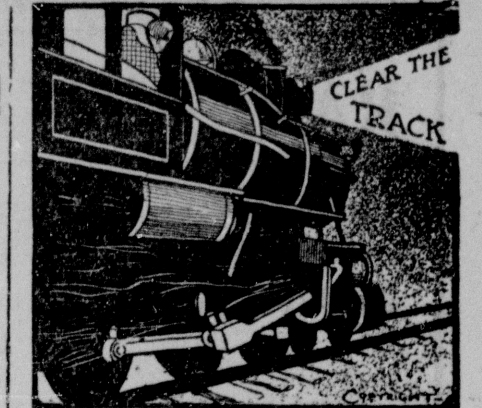

Myriads Have Learned of Its Remarkable Curative Value.

From the very fact that S. S. S., the famous blood purifier, is a natural medicine, it is opposed by those who can not give up mercury and other dangerous drugs. Habit is a strange master. Afflicted people use mercury with a blind force of habit. Not warned by the rheumatism they see all around them, unmineralized blood, locomotor ataxia, paralysis and other dreaded results of mineral poisoning, they cling to the fast disappearing treatment so surely and positively being replaced by S. S. S., wherever the light strikes in. S. S. S. is fast becoming the world's panacea for all blood troubles because it is welcome to a weak stomach, is taken naturally into the blood, is a wave of purifying influence known by its remarkable curative results, and is the standby of a host of people.

It goes into the blood and remains a strong medicinal influence to the end and this without any other effect than that of a purely cleansing property. It is the most universally recommended blood remedy known, and has sustained its reputation for half a century. Its ingredients are Nature's delicate antidotes for germs that create our worst afflictions. Get a bottle today of any druggist. Refuse all substitutes. Write the medical department, The Swift Specific Co., 62 Swift Bldg., Atlanta, Ga., for free advice on blood troubles, and how to overcome them. This department is one of the finest helps to men to be found anywhere, and it is entirely free.

Mrs. Joseph Rodems and son Alfred of East State street went to Springfield Friday morning for a visit with relatives and are expected to return home this evening.

SUSANNAH HENDERSON OBSERVES  
HER EIGHTY-FIFTH BIRTHDAY

Relatives Gathered at the Home of Mrs. J. A. Litch Saturday in Honor of the Important Anniversary.

The 85th milestone in the life journey of Aunt Susannah Henderson was passed Saturday and as usual her dutiful children and grandchildren assisted in a suitable celebration of the event. The beautiful home of her daughter, Mrs. J. A. Litch of Litchfield was thrown open for the occasion and thither the guests to the number of twenty repaired and all devoted themselves to having a good time.

Music and recitations along with pleasant sociability occupied the fast flying hours and all were in the best of spirits. Of course the dinner was an important feature of the occasion and as usual it was simply superb and unsurpassed. The principal in this part of the occasion were Aunt Susannah's two daughters, Mrs. Sam H. Crum and Mrs. J. A. Litch and their reputation as fine cooks is so well known that it is only necessary to say they fully sustained their excellent records on this occasion. The table was bountifully supplied with all that could be brought to please the appetite and the guests did ample justice to the fine bill of fare.

The C. P. & St. L. train down was so late that all remained to supper and decided to make a house party of the occasion and the mirth continued till a late hour in the evening. Aunt Susannah was kindly remembered with a number of handsome and useful gifts.

Among the guests present there were Mr. and Mrs. S. O. Shuff and daughter Stella of this city; Mrs. A. E. Richardson of the Point; Mrs. George Henderson of Virginia; Taylor Henderson and wife of this city; Mr. and Mrs. Durrell Crum, Mr. and Mrs. Ona Crum, Mr. and Mrs. Underbrink and daughter, Mildred, all of Litchfield and vicinity.

Mrs. Henderson was the daughter of Zachariah and Barbara Johnson and was born within a few miles of the place in which she now lives and came to life when the country was new. Her parents were Godly people and reared the family in the fear of the Lord and all did then credit. She was married to Jerry Henderson, March 10, 1847 and is the mother of five children, Lydia, now dead, Mrs. Sam H. Crum, Mrs. J. A. Litch, William of Little Indian and Taylor of this city. She has but two grandchildren, Durrell and Ona Crum, estimable citizens of the vicinity of Litchfield and no great grandchildren. Her husband died May 5, 1894 and though she would be cordially welcome at the home of any of her children she prefers to have her own little home and attend to her garden and chickens and when she can elude the watchfulness of her relatives she will even slip out and hoe and dig her potatoes. She is in excellent health and bids fair to see many more birthdays and may they be numerous.

NEW LUNG MOTOR FOR USE OF CITY

Jacksonville Railway and Light Company Receives Instrument.

The Jacksonville Railway & Light Company has received a lung motor, an instrument used in cases of asphyxiation, electrocution, drowning and the same will be given over to the city for public use. At the meeting of the Morgan County Medical society Thursday night a demonstration will be given of the machine and it will also be determined at that time, the best place to keep the instrument.

All cities of any size have a lung motor and its important place in case of accidents has already been assured. The company had made negotiations for an instrument some

## This Label Stands for the Child and the Home

Twelve thousand children are working in the cigar factories of the United States, according to the last reports of the Government census. Shops in which members of the Cigar Makers' Union are employed have no children employed at making cigars. The C. M. I. U. of A. does not stand for such a practice. When buying cigars look for our Blue Label. It is a safeguard against child labor.

# Do You Know

?

How a will should be drawn?

To whom your estate would revert in case of your death without a will? The duties of an Executor, Administrator or Trustee?

That it is as important for a man with a small estate to make a will as for the wealthy one?

That if you own any real estate and should die without a will expensive litigation may be necessary?

That every owner of real estate should make a will so that in the event of death his estate can be settled promptly and with little expense?

That the court costs, etc. for administering a small estate are proportionately much greater than for a large one and that these costs are reduced by a will?

And, that YOU should make a will to protect those near and dear to you?

### JUNIOR ETUDE CLUB HOSTESS TO SIMILAR CLUB OF ROODHOUSE

Young Ladies of Both Organizations Spend Delightful Afternoon and Evening—Programs Given Concluded With Banquet at David Prince School.

The Junior Etude club of Jacksonville entertained the members of a similar organization of Roodhouse Saturday afternoon and evening and the occasion proved most delightful in every way. The young ladies arrived in the city at 1:30 o'clock where they were met by the members here and all went to the State School for the Blind where a program of unusual merit was given as follows:

Orchestra: "Dawn," "Love Song"—Nevin.  
Piano duet—Volkman.  
Celia Atkinson and Moxin Hatch Reading—Augusta Mulcher.  
Piano solo: "Waltz Impromptu"—Lach.  
Richard Dykstra.  
Violin: "Slovakia Dance"—Bohm.  
Louis Stein.  
Piano solo: "The Myrtles"—Wachs.  
Ethel Van Meter.  
Voice: "A Perfect Day"—Carrie Jacobs-Bond.  
Ralph Piper.  
Piano solo: "Waltz"—Mowakowaki.  
Claude Rynders.  
Senior chorus: "Goodnight Beloved"—Piusiti; "Daybreak"—Nevin.  
The program was concluded by a short talk by Supt. H. E. Montgomery.

#### At Woman's College.

Adjournment was then taken to the Woman's college where the exercises were held in the room of the Belle Lettres literary society. The program by members of the Jacksonville Junior Etude club follows: Address of Welcome—Mildred Patton.

Response—Irene Worcester, Roodhouse.

Piano solo: "Etude"—Schyff—Lucille Bolton.

Paper: "The Sonata Pathetic"—Beethoven. Allegro by Hildegard Rose; Adagio by Grace Van Houten; Rondo, by Lola Markille.

Violin solo: "Adagio" from Moonlight Sonata by Beethoven, Frances Leck, accompanist, Elizabeth Cogswell.

Reading—Hazel Widmayer.

Piano duet: "Rigoletto"—Aileen Fitch and Hildegard Rose.

Critic, Helen Bennett.

Dr. J. R. Harker was a guest of honor and made an address. Miss Demuth, a teacher of piano, was also a guest and favored the girls with two excellent piano numbers and Mr. Henry Stearns, director of music, gave two selections on the pipe organ. The girls were also shown through the various departments of the college.

#### Club Banquet.

The young ladies next went to the David Prince school where a banquet was served and where the visitors were shown the new building, all being delighted with its many interesting points. The dinner was served at 6:30 by the junior class in Domestic Science, under the direction of Miss Ella Newman. After the excellent menu had been disposed of Miss Grace Van Houten was introduced as toast mistress and the following toasts were given:

"The Musical Age"—Anna Bradley.

"The Personnel of Our Club"—Irene Jolly, Roodhouse.

"The Future of Our Club"—Esther Claus.

"What Our Club Means to Roodhouse"—Nellie Griffith, Roodhouse.

"Those Who Cannot Belong to Our Club"—Edith Rogers.

Club song.

Members of Roodhouse Club.

Miss Irene Worcester, a former pupil at the Woman's college was the organizer of the Roodhouse Etude club. Miss Worcester became interested in the club here and gathered together a number of young ladies in her home town who at once became interested in the organization. It is needless to say that the visitors greatly enjoyed the hours spent here. They left for their home at 8 o'clock over the Alton.

The personnel of the Roodhouse club follows:

Madama Amos, Etheline Andrews, Mildred Anderson, Leta Doyle, Nellie Griffith, Hazel Griffith, Bessie Griffith, Lucile Arnold, Florence Pellet, Florence Garvin, Ruby Michaels, Helen Strang, Aileen Fitch, Irene Jolly, Frances Thompson, Margaret Thompson, Mary Thomas, Doris Schuman, Hattie Ford, Alma Van Tyle, Hilda Van Tyle, Abbie Husted and Irene Worcester.

The Fine Point club will meet with Mrs. Charles E. Scott, 125 Westminster street, Friday afternoon at 2:30 o'clock.

#### SOCIAL EVENTS.

The Ladies Aid Society of Centenary church will meet Thursday, Feb. 11, at 2:30 with Mrs. Homer Rowland, 128 Richards street. Assistant hostesses will be Mrs. C. P. Ross, Mrs. Benson, Mrs. Priest, Mrs. Phelps and Miss Maggie Becker.

Mr. and Mrs. James Middleton recently gave a goose dinner to a number of friends and the unique affair was much enjoyed by all the guests. Music and various pastimes occupied the hours and of course the dinner was fine and the chief feature of the occasion. The guests were Mr. and Mrs. Harry Furry, Mr. and Mrs. Ernest Dewess, Mr. and Mrs. W. A. Davidson, Mr. and Mrs. Sam Bridgman, James Erixson.

#### INSTALLS NEW SHOW CASE.

The new snow case which has been installed at Harry Dorwart's market on West State street is of the latest make and is a decided credit to the establishment. The case is for cold storage use and will add considerably to the attractiveness and the service facilities of Mr. Dorwart's market.

## Jeffries Concert Band

Don't fail to attend. An excellent program has been prepared. No admission will be charged, merely a free-will offering being taken up. Go, and boost for your Home Band and our Town.

#### WILSON TO UNLOCK ALASKA.

Washington, Feb. 5.—President Wilson's selection of the government rail route in Alaska, which is the first step in the government's plan to open up Alaska to development, is expected within a week or two. Whether he will advocate the purchase of the Modgan-Guggenheim road, known as the Copper River and Northwestern railroad, or of another road known as the Alaskan Northern, is a matter of speculation. All of the facts in connection with both routes have been laid before the president. That it will be advantageous for the government to purchase one or the other of the railroads, as part of the government owned railway systems connecting the coast with the coal fields, is generally conceded, and engineers have been studying the problem for some time.

The opening up of the rich coal deposits in Alaska will bring a big boom to the northwest, it is believed in Seattle. It is pointed out that heretofore the laws of Alaska have been such as practically to forbid private enterprise from attempting to build the roads necessary. With the building and completion of the government railroad, it is believed that private capital will be encouraged to work the coal fields, under rigid government supervision. It is reported here that the Alaskan coal will be a big factor in the price of fuel when the Alaskan mines are opened up extensively, and it is said to be the hope of the administration that a lower level of prices will be reached.

#### BIRTH RECORD.

Born, Feb. 3, to Mr. and Mrs. Edward White of Allen avenue, a son.

#### GRIGGSVILLE 30; WHIPPLE 10.

The Whipple Academy basketball team returned Saturday morning from Griggsville where they played the local team and suffered a defeat of 30 to 10. Allen played center for Whipple and Land and Smith were forwards. Sooy and Whisler played guard.

We will call for and deliver suits and overcoats, cleaned and pressed for 75c. Purity Shop.

#### WILL MEET TUESDAY.

The Morgan County Farmers' club will meet Tuesday afternoon at 1 o'clock at the Court house. Well known farmers will take part in the discussion of oat seeding and corn stalk disposition.

## CATTLE FEEDERS

### Woods Improved Grain Softener

Pat. Applied for 100 bu. size.

The Woods Improved Grain Softener will add 100 per cent to the value of No. 2 corn for feeding cattle. It will add 50 per cent to feed for hogs and horses, and supplies the very feed to mix with silage for milk cows. If any one wishes these statements proven, I will furnish them a plant on six months trial, and if it proves my claims they help me sell my plants to their neighbors. If it fails I will refund all money paid to me for said plant. All plants are sold at \$8.00 per bu., cob measure, and guaranteed to do all I claim if used according to my directions.

We find by putting soda in the corn when cooking it helps make the corn more digestible enough to pay for the soda, and keeps the hogs in a healthy condition. We also make all the charcoal we need by closing the draft so it can not get air, when we have a bed of live coals.

Yours for producing more beef and pork.

CHAS. WOOD, R. F. D. No. 6

SPRING STOCK will soon be here. To move present stock I have special prices on Furnaces and Fittings, Guttering and Spouting and Tin Roofing. Your order will have prompt attention.

FAUGUST, The Tinner.

Bell 444 214 N. Main St. Ill. Phone 1301

## IOWA WINS TITLE OF BANNER CROP STATE

ILLINOIS IS GIVEN SECOND HONORS AND TEXAS THIRD.

Thirteenth Principal Crops of Illinois Were Worth \$319,656,000—Decrease in Value of Cotton Causes Lone Star State to Lose First.

Washington, Feb. 6.—Iowa has wrested from Texas the title of banner crop state, the thirteen principal crops grown there last year being valued at \$351,450,000, according to the Agricultural Outlook issued today. Illinois crops were worth \$319,656,000 while Texas comes third with \$288,335,000. Decrease in the value of cotton was the cause of the smaller value of Texas crops.

Kansas with \$287,662,000 is fourth, Nebraska with \$210,999,000 fifth and Ohio with \$207,337,000 sixth. Other states in order of value of the thirteen principal crops are: Missouri \$192,951,000; Indiana \$189,553,000; Minnesota \$180,432,000; Pennsylvania \$173,967,000; New York \$161,919,000; Georgia \$155,167,000; Wisconsin \$152,321,000; North Dakota \$144,293,000; Michigan \$139,899,000; Oklahoma \$134,159,000; North Carolina \$124,918,000; Kentucky \$118,325,000; Alabama \$114,255,000; South Dakota \$106,499,000; Tennessee \$106,456,000; South Carolina \$101,373,000. All other states were less than \$100,000,000.

### EUROPEAN WAR NOTES

Vienna, via London, Feb. 6.—(10:10 p. m.)—The war office has issued the following statement: "Along the Carpathian front and in Bukovina the fighting continues. The situation in Poland and West Galicia remains unchanged. A Russian night attack on Lopuzno (region of Kielce) was repulsed. "In the Southern war theatre nothing of significance has occurred recently."

Petrograd, Feb. 6, via London. —(8:55 p. m.)—The ways and means committee of the Duma today unanimously recommended that the government declare a monopoly on tea, tobacco, oil, matches and insurance of all kinds. The recommendation virtually assures the passage of the bill by the Duma it is stated. The bill declares that hereafter the things named shall form the basis of the government revenue which heretofore has been derived from the monopoly on vodka and from an indirect tax on certain necessities.

In Odessa and in Nikolaiev, on the river Bug, the government has sequestered all the property of German stock companies, including factories, car lines, hotels and tenements.

Berlin, Feb. 6, by wireless to London, Feb. 6.—(7 p. m.)—The memorandum of the German government concerning a blockade of British waters states:

"The British war measures are a continuous violation of International law. Great Britain placed objects which were not of any use in war on the list of contraband articles and even dismissed the question of contraband by seizing all objects destined for Germany and by taking away German property from neutral ships and imprisoning Germans of military age found on neutral ships.

"All these measures have for their object the maintenance of British interests the destruction of German economical life and the starvation of the German people.

"Neutral powers are contenting themselves with vain protests against Great Britain's illegal and injurious measures and are even under pressure from England issuing orders prohibiting the export and transit of goods to Germany.

"Germany, therefore, is obliged energetically to protest her life and interests by declaring a blockade. "A fortnight's delay will give merchant ships the necessary time to make arrangements."

### BELLIGERENTS BUY AND EXPORT MORE THAN 75,000 HORSES

WASHINGTON, Feb. 6.—Warring European nations have bought and exported more than 75,000 horses from the United States but there is no immediate danger apparent that continued export will cause an acute shortage of horses in this country, according to G. A. Bell of the bureau of animal husbandry in the agricultural outlook published today.

"We could sell two or three times the number already exported without there being any appreciable shortage of work horses," the statement says. "The kind purchased are for the most part very mediocre animals, which would ordinarily sell for less than \$100 per head and are of a class which we can well afford to sell."

Edgar Cooper, who is employed in the secretary of state's office at Springfield was in the city yesterday on his way to visit home folks in Concord.

## DEFENSIVE MEASURES FOR THE BRITISH ISLES

Faith in Navy is Unshaken but Coast Defenses Have Also Been Provided.

London, Feb. 6.—Defensive measures along the coast of the British Isles have taken on an aspect of serious determination never before known in the history of England. Although details are closely guarded, emergency measures are known to exist this winter for the protection of all strategic coast lines. The British faith in her naval force to keep away any landing force is still intact, but every emergency has been provided for.

Never since 1789 has the government paid so great an attention to the possibility of invasion. Her big fleets and her command of the sea has been the assurance of England against her enemies.

Discussion of the possibility of an invasion is bringing out a good deal of history that is irrelevant to conditions of the present day, and some history that is not historical. What happened in the Middle Ages does not count, nor will German strategists lay much weight on the success of William of Orange in landing an army in England in 1688. For it was by the connivance of some leading British politicians and not a few officers of the army and navy, who were in the secret, that the landing was effected. But when an English writer of considerable standing declares that there has been no foreign force landed in Great Britain since the abortive French expedition in 1797 he is wrong. That was the so-called "Fishguard Invasion," which was led by a Colonel Tate, an American in the French service. It was soon over, and caused more laughter than bloodshed.

The next year, however, General Humbert landed in Ireland with about 1200 French veterans under his orders. For a few weeks Humbert made things lively in parts of Ireland, and small as was his force, he defeated a large body of loyalists. Though ultimately forced to surrender, Humbert gave the British public confidence a severe shock. Humbert has an interest for Americans, because, going to America after his Irish exploit, he cast his lot with Andrew Jackson and was one of the latter's most efficient lieutenants at the Battle of New Orleans. Humbert had the experience, therefore, of being present at two defeats of the British, in one of which he commanded in person.

The exploit of Humbert in Ireland created a scare far more alarming than that of the Zeppelin and flying maneuvers of the Germans in the present war. So alarmed was the government that the Bank of England, on February 6, 1789, subscribed \$1,000,000 to assist the government to repel the threatened invasion. By the assistance of manufacturers and coast cities, the sum was raised to \$7,500,000 which was a large sum of money in those days. Old prints of that period show that the English then discussed the most fantastic projects of invasion, just as they are doing today. An ingenious print published in 1789 shows a huge French raft propelled by windmills conveying thousands of French soldiers. Another print shows Napoleon's army marching to Dover through a submarine tunnel, which they had constructed unknown to the English. Today the imagination of that artist of olden time is becoming a reality, for such a tunnel is under construction, and if it were completed it would be of immense value, and not of immense danger, in under-channel communication with France.

The ordinary Englishman thinks of two possible methods of invading his country, Zeppelin raids not being ranked as an invasion. These two methods are: the seizure of one or more English ports by a tremendous German fleet and the landing of troops, and the second is the landing of troops from transports in small boats at some open, unprotected part of the coast.

They have been assured that these methods are practically hopeless; first, because the attack on a port would give the English plenty of time to concentrate troops in that direction, and, second, because the placing of troops in small boats would expose them to destruction by comparatively smaller forces ashore. A third, and more plausible method, would be to land soldiers from shallow lighters carrying 500 to 1,000 men each. That such lighters could be hauled from Germany while the German fleet engages the British fleet in the upper North Sea is the vision of the suggester of the plan.

The general opinion is that the English authorities believe that the Germans have planned out a comprehensive method of invading England, and they, the English, have made their arrangements to meet any possible move of the enemy.

### SATURDAY IN CONGRESS.

#### Senate

Not in session, meets Monday. Postoffice committee cut \$2,000,000 from appropriation bill because of decrease postal revenue.

#### House

Met at 11 a. m. The session was devoted to debate on the Sunday civil appropriation bill.

### JAPANESE CRUISER ASAMA IS REPORTED TO BE IN NO DANGER

Warship is Aground in Turtle Bay, Near Port San Bartolome, Lower California—Rear Admiral Howard Gives Report.

Washington, Feb. 6.—The Japanese cruiser Asama, aground in Turtle Bay, near Port San Bartolome, Lower California, "is in no danger" according to a report to the navy department today from Rear Admiral Howard, commanding the Pacific fleet in Mexican waters.

Admiral Howard is due to reach the Asama today on the Cruiser San Diego. His report was based on a radiogram from the Cruiser Raleigh which already has reached the stranded ship. The navy department summarized official reports in this statement: "Admiral Howard has wired from the U. S. S. San Diego that the Raleigh reports the Japanese cruiser Asama is aground on an uncharted shoal. He says there is no immediate danger. Admiral Howard should arrive on the scene on board the San Diego today."

Officials were reticent in discussing the international phase of the case arising from the fact that warships of the United States, a neutral nation, are aiding the armed forces of a belligerent nation in waters foreign to the United States. The situation it was said was unique in international law. The shoal on which the Asama is grounded is believed to be within the territorial waters of Mexico. Official opinion inclined to the view that the most the American vessels could do was to take the officers and crew off the ship. The dictates of humanity, it was pointed out, as interpreted by international law, permit the rescue of belligerent personnel by neutrals, but would not allow the American craft to assist in re-floating the vessel. From Admiral Howard's dispatch officials assume that the crew of the Asama is still aboard her.

Should they have landed on Mexican soil, however, as unofficial reports indicate, the situation would become more complicated. In that event the opinion was expressed that the sailors could scarcely be brought away from Mexico should they be taken on American vessels technically American soil, it is taken for granted they will be brought to the United States for internment during the war and as America will be held to whatever fate may befall her.

### HELPING HAND

Good friends may help you at the start, and head you for success and fame, but on your own undaunted heart you must depend to win the game. I often think that helping hands are prone to injure more than aid; when they're withdrawn, the helped one stands all undecided and afraid. He's learned on others to rely, his courage leaks away, afterwards; and he who started out for pie, is satisfied to gather prunes. Not all unlucky is the youth who says, "I have no friend to help; I'll have to live my row, in sooth, with none to aid me when I yelp. My comforters, like those of Job, will jar me more than they will bless; so I must show this cheap old globe what sort of mettle I possess." So he at once gets down to tacks, and welds whatever tool is his, the pen, the hacksaw or the ax, as though he meant to make things whiz. And, having learned to make his way, without the help of any man, he gains success, while t'other jay we aided, is an also ran.

Walt Mason

**"CASCARETS" ALWAYS****STRAIGHTEN YOU UP**

Tonight! Clean Your Bowels and End Headaches, Colds, Sour Stomach.

Get a 10-cent box now.

You men and women who can't get feeling right—who have headache, coated tongue, foul taste and sour breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel worn out.

Are you keeping your bowels clean with Cascarets or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret tonight will straighten you out by morning—a 10 cent box from any drug store will keep your stomach sweet; liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.—Advertisement.

**GIRLS! THICKEN AND**

**BEAUTIFY YOUR HAIR.** Bring Back its Gloss, Lustre, Charm and Get Rid of Dandruff.

To be possessed of a head of heavy beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre, and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting all over your scalp—Danderine is, we believe, the only sure cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine, and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy, and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Advertisement.

**BREAKS A COLD IN****FEW HOURS—TRY IT!**

First Dose of Pape's Cold Compound Relieves All Grippe Misery. Don't stay stuffed-up!

Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs. It promptly opens clogged-up nostrils and air passages; stops sneezing, discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.—Adv.

**LOSING HOPE****WOMAN VERY ILL**

Finally Restored To Health By Lydia E. Pinkham's Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7 Bellevue, Ohio.

**Woman's Precious Gift.** The one which she should most zealously guard, is her health, but it is the one most often neglected, until some ailment peculiar to her sex has fastened itself upon her. When so affected such women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

**THE SALARY QUESTION.**

Editor Journal.—I have been reading the editorials in the Journal and Courier during the past week relative to the proposed City Ordinance to reduce the Salary of Commissioners and Mayor from \$1700 and \$2000 to \$600 and \$900. Some of the editorials remind me of a story I remember reading in the book entitled, "Peck's Bad Boy"—Young Peck climbed on top of his father's house to look down the chimney; he fell down the chimney and stuck; his father took a long pole, climbed up and punched down the chimney, young Peck was lodged too far down. He then went below and punched up, young Peck was too far up. After reading, it was never clear in my mind just what position in the chimney young Peck occupied.

In one of the editorials in the Journal, I read that a number of the people that signed the petition for the proposed ordinance reducing the salaries called up the City Hall and asked that their names be removed from the petition. Now I signed the petition but I have not asked anyone to remove my name neither have I been able to find anyone that has made the request. I believe the facts are that after the petition was filed Mr. Newman, a present commissioner started around to see if he could get some of those that signed the petition to withdraw their names. Mr. Newman makes some very peculiar mistakes, in doing this he showed to the voters that he was afraid of the people's decision—on the proposed ordinance. Also he exposed his ignorance of the law, after serving almost four years as commissioner of the city and asking for the second term, he overlooked the fact that no one can withdraw his name from a petition of this kind after the same has been properly signed, sworn to and filed.

I signed the petition for the proposed ordinance and also expect to vote for the ordinance—I simply think that \$1700 and \$2000 per year for Commissioner and Mayor is entirely too much for the services rendered, or services that could be rendered, by commissioner and mayor in a city the size of Jacksonville. If the salary of Commissioner and Mayor remains as it is it will make of them plums. I have commonly heard it spoken by a great number of citizens, tax payers and voters of Jacksonville, that Daniel Bahaan has done as much or more for Jacksonville, as any man ever elected to the office of alderman. I also believe this to be true. I believe it to be the fact that Joseph De Goveia and H. V. Higgins who have served a number of years in the council have been efficient men and at no time did they ever receive to exceed \$144 per year for their services. I can not believe that such men as these are incompetent and cheap. Neither can I believe that there is any citizen of Jacksonville that could be elected commissioner whose efficiency is so much greater than the men that I have mentioned that their services to the city could be worth over \$1500 per year more. Already there are several candidates for commissioner that I have heard express themselves favorable to the proposed ordinance. Also I have heard at least one candidate for Mayor express his views; they are all good men and they signify a perfect willingness to abide by the decision of the people on the proposed ordinance. If the proposed ordinance was a political question I could see some reason for secrecy of discussion but as it is a purely business proposition, any voter, man or woman, has a right to express views. If there are any opposed to the reduction, of the present salaries of commissioner and mayor, what would be wrong with them expressing their views?

One thing is sure, the ordinance must either be passed by the present council or put to a vote of the people. If the petition has the required number of names and has been filed according to law, I do not think that any candidate for mayor or commissioner would entertain an idea of resigning his position, if elected from the fact that the salary of the commissioner was reduced to \$600 a year and the mayor \$900. If there is any candidate that would have to resign from the cause of the ordinance passing, what is to prevent him from resigning right now? I do not think that any of the candidates have been especially drafted to become candidates and I am positive that I can pick from the number already in the field four commissioners and one mayor that will willingly accept the salary, if reduced, and I am equally positive in my mind that they are thoroughly reliable honest and efficient. I do not believe that it requires a man so wonderfully efficient for the office of commissioner or mayor, that it would require the tax payers of this city to pay them \$1700 and \$2000 per year.

My idea of the efficiency of men to fill these offices is very limited; first, an honest man; second, a man of good moral character; third, a man of good business ability; fourth, men with good horse sense.

Yours truly, R. L. Dye.

**INCORPORATE FILM FIRM.** Quincy, Ills., Feb. 6.—Incorporation papers were drawn here today for the Mississippi Valley Film Company, to engage in the production and distribution of filmed photographs. The purpose is to utilize Mississippi and Illinois river scenery and to stage stories with a Middle West setting. Among those interested are Sidney H. Landcraft, Peter Plakebann, W. B. Sheets and Perry C. Ellis. Mr. Ellis publisher of the Mississippi Valley Magazine and was editor of the Quincy Whig for several years.

**UNITED STATES PUBLIC HEALTH SERVICE.**

Breathe Fresh Air, Night and Day.

Breathe all the fresh air you can get, night and day. That's what fresh air is for. The fearsome legends about the baleful influences of "night air" is only another of the carefully nursed insidious bequests from our ancestors, according to Senior Surgeon Banks, of the United States Public Health Service.

When this superstition arose may only be surmised. Perhaps it is a survival of the primeval cult of Sun worship, which led the ancients to classify anything outside the sphere of solar influence. Our forbears were wont to caution their offspring to "be careful about the night air" or children were ordered to "come in out of the night air." It is perhaps fortunate for the children living in the arctic circle, where the nights are six months long, that the Esquimaux mothers do not entertain this crude notion about night air, else their progeny would spend half the year indoors.

This idea is generally prevalent and even one of our well-known flowers is loaded down with the horrible name of "Deadly Nightshade" as a sort of verbal relic of this old notion. The low-lying mist or fog that sometimes gathers about the surface of the earth under certain atmospheric conditions, after sunset, was held, is held, to be "miasmatic" and pregnant with lethal possibilities. This is worthy of all the respect that should be put to any hoary superstition, but its place is in the specimen jars of an archaeological museum, not in the show room of modern intelligent life.

The night air, minus the sun, is no different from the atmosphere of a sunless day. The atmospheric envelope of the earth does not change from benign to malign in the twinkling of an eye after sundown. It is still composed of oxygen, nitrogen, argon and carbon dioxide in the normal proportions for the given locality. The open air treatment of tuberculosis and its kindred allies had first to combat this venerable jargon about the deadliness of night air, and only the remarkable results of this hygienic aid to its cure brought the superstitious to a realization of the silliness of their ingrained noctophobia.

This generation has witnessed the emancipation of human beings in respect to the value of fresh air, whether in bulk or in smaller "drafts". From being a people immersed in hermetically sealed rooms at night, breathing our own bodily exhalations over and over again, a constantly increasing number of persons are sleeping in the open, or at least with open windows, summer and winter, to their great benefit. In the morning they are refreshed with the pure oxygen of the air breathed during sleep, not "stewed" nor "seedy" after eight hours spent in respiring and re-respiring second-hand and shopworn air in a closed bedroom.

A story from the trenches in France is that a soldier wrote home to his wife to open her windows at night as he had found that the night air "didn't hurt one bit". That is the experience of all the advocates of this sensible custom—once tried the old custom of sealing one's self in an air-tight bedroom is never renewed. Diseases which involve the lungs can usually be traced to their beginning in poorly ventilated sleeping apartments, inside rooms that do not have a share of the atmosphere. Nothing can live well or long without oxygen in the air, and it was given to us for breathing, night and day, not to be taken in sparingly, as if it were a dangerous potion. Some people are actually afraid of ordinary, common air.

Those emancipated persons who open their windows at night will tell you, unanimously, that they cannot breathe in a chamber unless the window is raised, their sense of comfort and vigor demands the life giving qualities of fresh air. No greater prophylactic advice can be promulgated than to breathe all the fresh atmospheric air you can get, night and day.

**THIS DATE IN HISTORY.**

February 7.

1451 B. C.—The Jews place the death of Moses on this day.

1778—Daniel Boone, the first settler of Kentucky, taken by the French and Indians. Escaped 10 days later and reached home safely.

1816—Charles Dickens, the great English novelist, born. Died 1870.

1871—Members of the Bonaparte family declared ineligible for election in French general election.

1875—Russians advanced on Constantinople; British fleet sent as a check.

1890—Duke of Orleans, French pretender, arrested while trying to enlist in French army. Served 4 months in jail.

1892—Hotel Royal, New York, burned; 60 lives lost.

1893—Direct telephone communication established between New York and Boston.

1897—Marriage of Queen Wilhelmina of Holland and Duke Henry of Mecklenburg-Schwerin.

1904—Beginning of great Baltimore fire that destroyed property valued at \$150,000,000.

1912—Myron T. Herrick was named as U. S. ambassador to France.

**PITTSBURG BANQUET.** Pittsburgh, Pa., Feb. 6.—At the annual banquet of the chamber of commerce tonight, Senator Thomas W. Hardwick of Georgia and Congressman Swager Sherley of Kentucky will be the principal speakers. Foreign trade and the national defense are the topics chosen.

**WOMAN'S COLLEGE NOTES.**

The week which has just closed has been one long to be remembered by the students and faculty of the college. The week of prayer services were in charge of Dr. J. C. Baker, pastor of the Trinity church, Urbana. Dr. Baker has been working with students for many years and his talks were most helpful. The sermon on Thursday morning was the combination of the talks of the preceding days, while the meeting in the afternoon was especially helpful.

The Home Economics Club met Wednesday afternoon in the department rooms. The extension work in the United States and Canada was discussed and many interesting features brought up.

The Dramatic club had its regular meeting Friday evening. In this organization are thirty-two of the best students of the college. Membership was conditioned on ability. It is one of the live organizations of the college.

Miss Irma Elliott who is doing graduate work in mathematics at the University of Illinois is visiting friends at the college. Her work the first semester at the university has ranked among the highest in the department in which she is engaged.

Miss Helen Pawson has given the library a set of Guizot's History of France in six volumes. Miss Effie Barker has also presented the library several volumes of scientific works.

Among the new classes which have been organized for the second semester, the history of painting has an unusually large enrollment.

On Monday, February 1, Miss Mary Johnston, head of the Latin department, gave an interesting talk to the Roman Senate of the high school. This is an organization of the Latin students studying Cicero. Miss Johnston's subject was "A Roman House."

President Harker is working out a most interesting study concerning students who have had relatives in the college. A great many have had five and six of the family in school. One of the students has had twenty-one of her immediate family in the college, which so far is the best record of any.

Preparations are well under way for the celebration of Washington's birthday on February 22.

Miss Mothershead has issued cards for an At Home, Saturday evening, February 13, to a "candle-burning" party in honor of Saint Valentine.

The Service Circle of the Young Woman's Christian Association are planning a number of practical courses this semester more particularly for the benefit of the young women who are employed by the college. Class in gymnasium work, singing and both cooking and sewing have been organized. There is an average of ten in each class. They are all being taught by the advanced students in the various departments interested and will be conducted as part of the Young Woman's Christian Association work.

**BOY SCOUTS SEEK****GOVERNMENT CHARTER**

Washington, Feb. 6.—The Boy Scouts of America will receive a government charter, if the recommendations of the senate judiciary committee are followed out. A bill to incorporate the Boy Scouts, with headquarters in Washington, has been favorably reported. The report of the committee says in part: "The Boy Scout movement aims to supplement established educational facilities in the inculcation of character by engaging the boy's leisure energies in outdoor activities which develop the powers of initiative and resourcefulness and lead him to become a better man and a good citizen. It tends to conserve the moral, intellectual and physical life of the coming generation and in its immediate results does much to reduce the problem of juvenile delinquency in the cities. The scout movement has grown rapidly during the past few years until it is now organized in practically every community of 1,000 inhabitants and over and in many smaller communities of the United States." The incorporators are residents of all sections of the country.

**ILLINOIS STATE CIVIL****SER ICE COMMISSION**

The state of Illinois is experiencing the same difficulties that private households meet. It has a hard job to secure good domestics for its institutions. At Jacksonville the most pressing need is usually at the School for the Deaf, but the Hospital need domestics too at frequent intervals. For greater convenience of applicants, arrangements have recently been made so that all employment matters may be attended to at the institution without any expense to the applicant.

**PAT MORAN GETS BOUQUET.**

Philadelphia, Pa., Feb. 6.—Pat Moran, the genial baseball veteran, who is velding together his team in the National league for his first year as manager, was the recipient of many congratulations and a big bouquet of flowers from his admirers today. For tomorrow, "Pat" will be 39 years old, and during his many years in baseball, he had endeared himself to his fellow-players.

**WOMAN 81 YEARS OLD**

Made Strong by Vinol. Greenville, S. C.—"I want others to know of the great benefit I have derived from Vinol. I am 81 years old and Vinol has given me strength, a healthy appetite and overcome nervousness. It is the best tonic I ever used."—Mrs. M. A. Hutchison.

**DICKENS' AND IRVING'S**

**GRAVES DECORATED.** London, Feb. 6.—The tombs of Sir Henry Irving, the great English actor, and Charles Dickens, the great writer of the common people, were today decorated with floral wreaths in commemoration of the birthdays of these noted dead. Westminster Abbey, where the actor and writer are buried, is annually visited by Britons and Americans on the birthdays of Irving and Dickens, the former falling on Feb. 6 and the latter on Feb. 7th.

**MACON TO HAVE BIG DEPOT.**

Macon, Ga., Feb. 6.—Work will soon begin on Macon's new \$1,500,000 railroad station. The city has deeded a valuable tract said to be worth a half million, to Central of Georgia road, on which to place the new station.

Clifton Davis of Orleans was an arrival in the city yesterday.

**POLITICAL ANNOUNCEMENTS.****For Mayor.**

I hereby announce myself a candidate for the office of mayor subject to the decision of the voters at the primary election March 9th.

H. J. Rodgers.

## If You Can't Eat All the Meat You Buy

Then a portion of your  
money is wasted. There is a  
little waste in every cut (be-  
cause the animal is built that  
way), but there is compara-  
tively little waste. You want the  
least of course. Come here.  
We pay cash which insures  
the best stock. We sell for  
cash, eliminating losses, and  
are able to trim your selec-  
tions closer, making less waste  
for you.

Our new cash meat market,  
E. State St., op. postoffice,  
will be particularly convenient  
for residents of the East Side.

Ben Cade of Murrayville was transacting business with Jacksonville merchants yesterday.  
Frank Green of Strawns Crossing was in the city on business Saturday.  
T. O. Graves of the Liberty neighborhood was trading in the city Saturday.

## RAILROAD NOTES

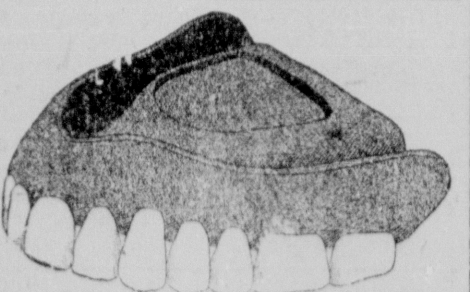

Foreman Thomas Connors, of the Alton maintenance department, expects to spend the day in Springfield.  
Mrs. Perry Shuman of Bloomington, wife of the Alton passenger conductor, is in White Hall, called there by the serious illness of her father, G. W. Secor, the veteran agent for the Alton at that point.  
Charles Buford, night targe man at the union station in Bloomington, is off duty on account of illness and has been relieved by Burt Smith, local switch tender. Isaac Slipp is filling Smith's place in this city.  
Conductor Frazier Keating.  
Jack Rawlings is filing the place of Conductor A. J. Frazier on Burlington passenger train 47 and 48 for a few days.  
Concession to Granite City.  
By an order issued yesterday the Alton Limited north bound will stop hereafter at Granite City. For a long time the people of that place have been endeavoring to force the Alton to halt this train at this point and have resorted to various means to accomplish this move. A new union station has been demanded and also subways and other improvements. By stopping the Limited there the company may be able to placate the city.  
Mishap Near Plainview.  
The Chicago and Alton north bound freight train 82 broke a flange near Plainview Friday night. A car was overturned and four derailed. Conductor Osborne and Engineer Siegfried were in charge of the train. It was necessary to detour passenger trains 5 and 7 through Roodhouse, involving a hour's delay to each.  
Firemen Are Changed.  
Alton train 32 and 33 had a new fireman yesterday as a result of the order announced a few days ago. William Fitzsimmons relieved Charles Posten on the local train. This train runs between this city and St. Louis. Posten has returned to Springfield, probably for freight service.  
Conductor Blount Injured.  
Conductor Blount of the Alton north end is off duty, nursing an injured leg. He accidentally fell into a cinder pit in the Glenn yards. One leg was painfully bruised, but he was able to work his way home. He then laid off, but despite the rest the injury has been growing more painful and there is fear of infection.

**DEPOSITORS OPPOSE PAROLE.**  
New York, Feb. 6.—The minimum jail term of David A. Sullivan expires today, but depositors of the defunct Union Bank of Brooklyn are opposing the movement of his friends to secure parole for Sullivan. The depositors contend that his conduct since his imprisonment in Sing Sing should debar him from getting a parole. Sullivan's name was connected with the recent scandal at Sing Sing.  
Miss May Edmonds of Alexander was a Jacksonville shopper Saturday.

## ANTICIPATION WARRANTS WILL BE CASHED AT FULL VALUE

William Newman Announces Arrangements He Has Made For Cash.  
For a number of days past R. L. Pyatt, city clerk, has been busy with the work of drawing warrants for bills approved by the council and to be paid with anticipation warrants. These warrants will probably be ready for distribution Wednesday, the 10th. Because the anticipation warrants draw only 5 per cent interest and are not payable until May, 1916, there has been some speculation as to whether they could be cashed without discount. Commissioner Newman announced Saturday that he had been able to complete arrangements with the Avera National bank whereby the bank would cash all anticipation warrants presented without discount. According to the figures of Mr. Newman, the total amount of anticipation warrants which may now be issued is \$39,850, which is the equivalent of 75 per cent. of the taxes of 1915 which will be payable next year. Practically all loans by the banks are now made at 7 per cent, and the fact that money has been for months considered "tight" has been the cause of the talk as to whether or not the holders of anticipation warrants would be able to secure their money without submitting to discount.  
**HAS BANK POSITION.**  
Merle Reynolds, son of Ralph Reynolds, has taken a position as bookkeeper with the Farmers' State Bank & Trust company. The growing business of the bank has made necessary additional bookkeeping force, and Mr. Reynolds was engaged for that reason. He is a young man who stands well in the community and will doubtless prove a valuable addition to the bank's force.

## Reduction No. 3 On Goodyear Tires

Making Total Reductions 45 Per Cent in Two Years To Give Always the Most for the Money

We are glad again—for the third time in two years—to announce a big reduction on Goodyear tires, effective February 1st.  
Goodyear policy on price is to give the utmost in tire at the lowest possible profit. Our reductions are made to that end, without ever reducing the quality.  
That always means, with our matchless output, more for the money than any other maker can give.  
As rubber came down our prices came down. As our output multiplied, reducing factory cost, our prices came down with it. In two years our reductions—including the present—have totaled 45 per cent.  
Last year we increased our output 26.6 per cent. A few days ago the embargo on rubber was modified so that supplies seem assured. The market price for rubber seems for a time established. Fabric costs less than last year. So, under our minimum profit policy, we announce this new reduction.  
**Only Fair Basis**  
We consider profit margin on a tire the only fair price basis. We keep that margin just as low as our line allows. While we do that, Goodyear tires will always undersell any tires that compare with them. That is because we have the largest output. We have a new factory, modernly equipped. And we have worldwide facilities for buying rubber, of our extra grade, at the lowest market price.  
For a long, long time most tires have sold much above Goodyear prices. Some have sold one-third higher. A few have sold lower, as some always will, because of less rubber, less quality. But we can and do, under all conditions, give more for the money than any rival tire can offer.  
**The Best We Know**  
Goodyear Fortified Tires offer the best we know. They are built to give you the lowest cost per mile. They minimize tire trouble in five costly ways employed by no other maker. And they are always the same, regardless of price reductions.  
Most tires will always sell higher, because of smaller output. Some tires will always sell lower because of lower standards. But we promise you that none will ever give better than Goodyear value.  
This policy has made Goodyear the largest-selling tires in the world. It will make them more so as more men find them out.  
Ask your Goodyear dealer for our new price on the size you buy.

THE GOODYEAR TIRE & RUBBER CO., Akron, Ohio

**GOODYEAR**  
AKRON, OHIO

## PROBATE COURT NEWS.

In the matter of the estate of Isalah Strawn. Final report approved. Surety on bond of executrix released from further liability. Executrix excused from making any further report until further ordered.  
In the matter of the estate of Theodore Tyrrell. Petition for letters testamentary. Petition heard and allowed. Bond waived by the terms of the will. Ordered that letters issue to Zoe Tyrrell.  
In the matter of the estate of John P. Wilson. Petition for letters of conservatorship allowed. Bond fixed at \$1,200 and approved as filed. Letters to issue to Homer H. Potter.

## CANDIDATES FOR THE FOURTH DEGREE

An exemplification of the 4th degree of the Knights of Columbus will be given in Peoria today, at a meeting of the southern district of the organization. There will be eight candidates from Jacksonville as follows: A. J. Gebert, Michael Obrien, W. T. Harmon, Michael White, John J. Ferry, D. Scott Sweeney, Henry Lavery and P. H. Lonergan. There are only two members of the lodge here who have taken the 4th degree, R. E. Harmon and W. H. McCarthy. Mr. McCarthy will accompany the candidates to Peoria. The work will be put on at 3 p. m. and at night a banquet will be served in Jefferson hotel.

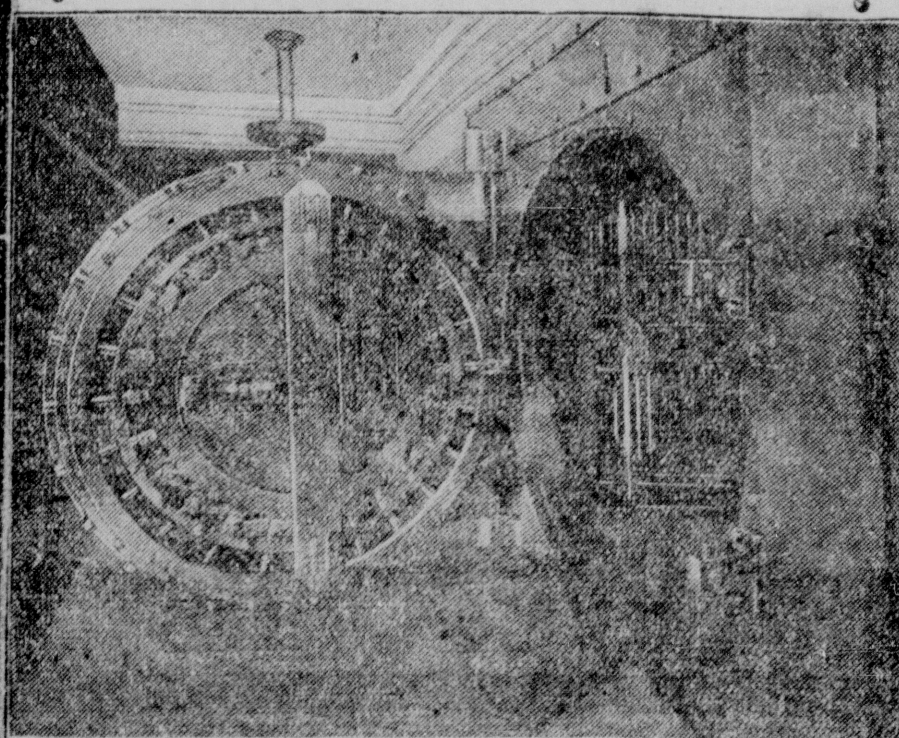

## THE AYERS NATIONAL BANK

### SAFE DEPOSIT BOXES

#### \$3.00 PER YEAR

Less than One Cent a Day.

There are hundreds of people in this vicinity who have become accustomed to using a tin box in which to keep their valuables, who by using one of our SAFE DEPOSIT BOXES will find they are safer, strictly private and more satisfactory in every way. It requires two keys to unlock the box. The customer has one and the Bank the other, which is the master key. If you should lose your key, and some one else should find it, it would do them no good, because it would require the master key, which we hold before the box could be opened.

There is no better or stronger vault in the United States, and the rate we pay on burglary insurance, which we carry, is the lowest in the country.

Come in and let our vault clerk, Mr. Ewen L. Whitlock, explain.

## The Surest Thing for SKIN DISEASES

It's no disgrace to contract eczema and it may not be necessary to continue to suffer.

Skin disease is one of the most difficult problems of medical science. Whole libraries have been written on the treatment, but if you are suffering you do not need the symptoms described — you know all about that.

Most cases of skin diseases are curable — some are not.

Where anything can cure or relieve

You can depend upon

**NYAL'S ECZEMA LOTION**

—It stops the intolerable itching and permits sleep.

Good also for tetter, barber's itch, ringworm, dry or scaly skin, and ivy poisoning.

A large bottle for \$1.00.

## J. H. S. WINS FAST GAME FROM QUINCY

DEFEATS ADAMS COUNTY FIVE BY SCORE OF 39 TO 41.

Score at the End of the First Half Was in Favor of Quincy—Contest Tied Four Times in Last Eight Minutes of Play.

Jacksonville High school basketball team, showed a reversal of form Saturday afternoon at Quincy, where they defeated the high school of that city by a score of 39 to 51. In the game played near a week ago Quincy was the victor by a good margin.

The contest was a fight from start to finish, everybody playing the game and it was not till Fred Mayer dropped one in a basket in the last thirty second of the game, that the question of the victor was settled. The big crowd was kept on their toes throughout the two halves and in the last half the game was tied four times in the remaining eight minutes of play.

Jacksonville opened the evening's offering by making seven points and after this Quincy forged ahead ending the scoring in the first half with seven points in the lead. Jacksonville whipped up in the second half and soon had the score tied. In the last eight minutes of play the score was tied four times and in the last thirty seconds of play Fred Mayer made the winning basket.

The big game was preceded by a curtain raiser between two girl teams.

The score:

Quincy	FB	FT	TP
Stoors, rf	1	0	2
Rudy, lf	7	0	14
Kuchman, c	8	5	21

## PASSAVANT NOTES.

Mrs. C. B. Duncan and little daughter of St. Joseph, Mo., are now at the home of her father, Dr. C. C. Cochran.

Dr. George Lightle of Tallula was a business caller at the hospital Saturday.

Mrs. W. C. Baker has returned to her home in Tallula after a visit at the hospital with her daughter, Mrs. Ernest Primm and her new grand-daughter.

Miss Beulah Hart of the nurses' force has been called to Manchester by the death of a near relative.

Mrs. Avery of the nurses' force was in Murrayville Saturday.

Miss Marie Kyle, a nurse is spending a short time at her home in Teoria.

Mrs. Green and son of Roodhouse have been visiting Mr. Green who is a patient at the hospital.

Mrs. Laura Holcher of Barry, who has been a patient at the hospital for several weeks, expects to return home soon.

Mrs. Clarence Gay of Barry was at the hospital Friday to see her husband.

Mallory Bros., masquerade suits.

## THREE DEPUTY FIRE MARSHALS VISIT CITY

H. G. Strumpler, A. H. Bogardus and F. R. Morgorais from the fire marshal's office in Springfield were visitors in Jacksonville Saturday. They made an inspection of the premises where the fire occurred yesterday at the home of Mrs. Carter on East Wolcott street.

## (L) LETTER GIVES VIVID PICTURE OF WAR TIME SORROWS

E. B. McGuillen Wrote About the Wounding of Stephen Henderson at the Battle of Resaca—Was Carried From Field By Comrades But Died of Wounds.

George G. Smith, who lives west of Arcadia, left at the Journal office yesterday a letter written to his grand-uncle, Emanuel Henderson, in 1864. The letter was written by E. B. McGuillen, who enlisted from the Arcadia neighborhood in Company C, 101st Ill. The letter was written to tell of the wounding of his brother, Stephen Henderson, in the battle of Resaca, Ga. which later resulted in his death.

The letter gives an interesting picture of war times, and is as follows:

"Yours of the 27th came to hand and found me in tolerable health. I was glad to hear of your being all well, as this leaves me very poorly at present, but I hope that I will soon be able to try them again. There is no doubt but you have heard long before this of our glorious victory over the rebels at Buzzards' Roost, also at Snake Gap and Resaca, also Kingston and Caseville. But there is no doubt of us suffering pretty heavy, as you also know before this, dear friend. I am heartily sorry for the brave comrades that I lost by the battle of Resaca. It is useless for me to mention them here, as I never think of them but with a sad and heavy heart. And we have one great consolation that they came to their death like men and soldiers, for never did a regiment fight better than the men of the 101st, and against four times its number, as they had a cross fire on us. Just at the time that S. G. was shot John Stewart stepped back to fill his cartridge, Bose and I remarked to S. G. that he was wounded. Stephen said he hoped not, and had primed and raised his gun when he was hit. We lost 97 out of the regiment. I brought Stephen back out of the way and fought on until they surrendered, and then Taylor and I carried him off the field to the hospital. He was shot in the left side, through the lower bowels. I will say no more about it, as I wrote to your father through Jordan's letter, also to D. McPadden and Catherine Henderson. Jim is wounded, also Bill Beaver. I think on the cheek bone, also slight flesh wounds. Tim Read dead. Jo. Wilson dead. Jo. Hinds dead. Major Brown wounded in neck. There are some other dead belonging to other companies. Give my love to Stephen's wife, and she has my warmest sympathy. The 101st has been engaged 3 days and came off victorious. I am slightly hurt, I will tell you when I see you. I hope in God it will be before long. Dear Emanuel, you must bear your trouble with Christian fortitude and I hope that God will help his wife. So I will conclude for the present and farewell. Direct to Nashville, Tenn., Cumberland Hospital for me, Co. C, 101st Regiment Ill. volunteers 1st Division, 3d Brigade, 2d corps for E. B. McGuillen or to follow. Please write forthwith. John Peters is not very well and John Stewart has a sore foot. I do not know where the regiment is now as it started on a 20 days' march on the 23d of this month."

Just to show you how good we do the work. Suits and overcoats pressed this week for 35c. Purity shop.

## PUPILS RECITAL SATURDAY AFTERNOON

Students of Miss Robinson Present Interesting Program.

A four o'clock recital was given in Miss Robinson's studio Saturday afternoon by members of her class in esauetic and gymnastic dancing. At 7:30 o'clock a program will be given in the chapel room and from 8:30 till 9 another chance will be given to inspect the building. At 9 o'clock an exhibition will be given in the gymnasium. This opening is for the public and everyone in the city will be cordially invited.

## MUSICAL ENTERTAINMENT.

There will be a musical entertainment by the Short family at Brooklyn church Thursday eve, Feb. 11.

Thomas Fitzpatrick was in the city yesterday from Sinclair.

## FUNERAL SERVICES HELD FOR LATE MRS. CLAYTON

The funeral of the late Mrs. Joseph Clayton was held Saturday afternoon at 2:30 o'clock at the family residence, 1249 West State street where a large company of friends assembled. The services were in charge of Dr. W. O. Post and were of a simplicity which accorded well with the known tastes of the deceased. Mrs. H. C. Woltman sang, "The Home of the Soul" and Dr. Post read passages from the 23d Psalm, the 14th chapter of John and from Revelations.

Then Dr. Post spoke briefly of the strength and kindness of Mrs. Clayton's character. He referred to her girlhood days, then to the period of young womanhood and the later years, and said there was nothing in the whole picture which her friends and others who loved her would omit. "Mrs. Clayton had a heart," the minister said, "which beat in ready sympathy for anyone in sorrow or in need. She was a woman with a keen appreciation of right and wrong and with marked courage and fearlessness, yet with unflinching tenderness she went along life's journey, following closely in the path of duty."

The minister referred to death as the enemy of all mankind, the last which man conquers and that only because of the Great Sacrifice given to the world by an all loving Creator. The house services closed with a few words of prayer and then the cortege moved to Diamond Grove cemetery. The bearers were M. L. Robinson, C. C. Capps, Frank H. Bode, W. T. Wilson, Edward Jenkinson and E. W. Bassett.

The many beautiful flowers were in charge of Mrs. James T. King, Miss Libbie Hatfield, Mrs. W. T. Wilson and Mrs. F. J. Waddell.

## ELLIOTT STATE BANK.

All deposits made in the savings department of the Elliott State Bank during the first ten days of February will draw interest from the first of the month.

## AID OPEN AIR SCHOOL.

The members of the Morgan county Dental society as a result of discussion at the last regular meeting have agreed to furnish tooth brushes for the open air school pupils and a gross and a half of the articles have been ordered. This will make it possible for all the children to take the proper care of their teeth and learn, under proper supervision, this necessary step in education.

## Stated convocation of Jacksonville Chapter No. 3, R. A. M. Monday evening at 7:30 o'clock.

Work. P. V. Coover, E. H. P. John R. Phillips, Secretary.

## BEARDSTOWN COUPLE HELD FOR MURDER

FRANK MILTON AND WIFE PLACED UNDER ARREST BY POLICE HERE.

Are Wanted in Cass County For the Alleged Killing of Annie Trimmer Last October—Woman's Body Was Found Floating in the River and Story is That She Was Choked to Death.

Frank Milton, alias Frank Davis, and Ella Davis, his wife, were arrested in this city by Policemen Eads and McGinnis on a state warrant issued by Judge G. T. Saunders at Beardstown, charging them with murder. Milton has been living in Jacksonville for several months working part of the time at any odd job he could pick up. For a time he and his wife lived in the car shops addition, but more recently have been residents of Broadway alley.

Milton is charged with the murder of Annie Trimmer on a cabin boat near Beardstown on the night of Oct. 14, 1914. His wife is held as an accessory to the crime and George Meyers, who is known in Beardstown police circles as "Humpy" Meyers, is in jail there and is also charged with complicity in the crime. Meyers is doing time now for theft, and the murder complaint has not been filed against him. Beardstown authorities, especially Judge Saunders, have been working on the case for some time, and it is understood that they have a strong chain of evidence to support their charge that Milton was primarily responsible for the woman's death.

According to the story Annie Trimmer lived on a cabin boat near Beardstown, and on the night of Oct. 14, Meyers, Milton, Ella Davis and others who were also living in cabin boats, assembled at the boat occupied by Miss Trimmer, a drunken and bawdy party was held, and it is also charged that an effort was made to rob the Trimmer woman. It is charged that Milton took her by the throat and demanded a \$5 bill which he knew she had about her person. It is said he choked her into an unconscious condition and subsequently he and others in the room laid her out on the floor and after bathing her face with water, left her for a time thinking that she would soon regain consciousness. Instead, it is said that she grew rapidly worse and that when an hour later it was found that she was dead, that she was dragged to a point somewhat distant from the cabin boat and thrown into the river.

The woman's body was found floating near the shore the day following, and at the coroner's inquest a verdict of suicide was returned. There were, however, attendant circumstances which gave ground for the belief that she had been foully dealt with and while nothing was said, authorities began working on the case and have kept in touch with the whereabouts of Milton, or Davis, as his name may be, and Ella Davis. It is said that the case against the accused will be vigorously prosecuted and that the state will rely principally upon the testimony of a woman who was an eye witness to the whole affair. Meyers also may give evidence for the state before the trial is concluded. As previously stated, watch has been kept upon Milton here and Chief of Police Davis at intervals informed the Beardstown authorities of his whereabouts.

**NOTICE.**  
All accounts due Cody-Vannier China Shop are payable to the new firm and we will appreciate a prompt settlement as we want to balance all old firm accounts.

## PUBLIC SALES HELD.

A public sale was held yesterday at the farm of George Dalton, three miles southeast of Franklin. The sale was a small one as far as it concerned livestock as the owner did not have any hogs or cows to auction. Horses sold from \$75 to \$150. Wheat straw brought 25 cents per bale and baled oats sold for 55 cents per bale. Other stuff sold well. C. M. Strawn of Alexander was the auctioneer.

## John S. Hart Sale.

John S. Hart, who resides nine miles south of Franklin, held a public sale Saturday afternoon. Mr. Hart and son Marion expect to leave soon for Dakota where they will conduct a large farm. Vernie Hart will reside on the home place.

There was present at the sale an interesting crowd of bidders and everything sold well. One pair of mules brought \$350, and sold to E. W. Edwards; Bernie Hart purchased one pair of mules coming three years old at \$220; Spring calves brought \$40; milk cows, \$52 to \$76 per head; hogs, \$2.00 to \$10 per head; brood sows, \$10.75 to \$17.00 per head; sheep, \$8 to \$9 per head; wheat straw, 28c per bale; seed corn, \$1.60 per bushel. Farming implements brought satisfactory prices. Mr. Hart had formerly sold his corn for 75c per bushel, measured.

Elmer Spencer acted as auctioneer and W. L. Bull and A. M. Bull were the clerks.

Call B. 1124, the Purity Shop, to get your suit or overcoat pressed for 35c.

## LEAVE FOR DENVER.

Fred A. Lane and family, 339 West State street, have gone to Denver, Colo., for a stay of a month or more. The trip west was prompted by the health of Mrs. Lane, which lately has not been of the best.

**ANDRE & ANDRE**

The Store of Today and Tomorrow

The Best goods for the price—no matter what the price.

This shows a new room with the BEAVER BOARD being nailed to the studs. The work is easier and rapidly done, without the lath and confusion of lath and plaster.

This shows how the room looks when finished. It suggests but one of very many artistic schemes of design and decoration possible with BEAVER BOARD walls and ceilings.

Use **BEAVER BOARD** for the Walls and Ceilings of Your New or Remodeled Building

It costs less than lath and plaster, lumber, or metal; is more quickly and easily put up; is durable, sanitary and artistic.

It will not crack, chip or deteriorate with age; it deadens sound, keeps out heat and cold, retards fire, and resists strain or vibration.

Made entirely of selected woods, reduced to fibrous form and pressed into panels of uniform thickness, with handsome pebbled surface. Made in convenient sizes for every purpose. Small quantities furnished for making many decorative and useful household articles. Full instructions for application. Apply to
